Senatorial Recommendations.

Information Wanted on the Subject—Sales of Arms to France a Question Between Germany and America—Removal of Political Disabilities—Repealing Stamp Duty—The Tobacco Tax—The Deficiency Bill Considered.

WASHINGTON, February 26, 1872.

SENATE.

BILLS INTRODUCED.

By Mr. RICE, providing that persons held as prisoners of war or in hospital at the time or subsequent to the issuing of their commissions shall have the same pay and emoluments as if mustered at that date.

By Mr. SPENCER, removing political disabilities from all persons engaged in rebellion, on condition that they shall not be enabled to maintain any claim or right against the United States before such removal of disabilities, unless the same occurred prior to April 11, 1861, or subsequent to April 19, 1865.

INFORMATION WANTED.

Mr. CONKLING offered the following resolution:

Resolved, That the President be requested to inform the Senate of the number of recommendations for appointment to or removal from office, so far as can be ascertained, made to the present administration by persons now Senators from the States of New York, Missouri, Illinois and Nebraska respectively, giving such particulars as may be given in regard to such recommendations, and in regard to persons whose appointment or removal was proposed, together with a statement of the number of cases in which action was taken in accordance with all such recommendations respectively; of the number of such persons so appointed who have been removed; also whether any Senators have solicited appointments or removals in any sense other than by transmitting papers, stating the character and qualifications of the applicants, or of those who vouched for applicants; if so, what Senators.

Mr. SAWYER moved to include South Carolina.

Mr. CONKLING accepted the amendment.

Mr. TIPTON moved to amend so as to include all the States.

Mr. CONKLING said he was willing to vote for a similar resolution applying to all the States, but he preferred to have this one passed unchanged, as he desired the information asked for as soon as possible.

Mr. TIPTON said Conkling seemed to favor partial investigation.

Mr. SUMNER called attention to the fact that Messrs. Schurz and Trumbull had just taken their seats. The investigation must not be pressed behind the backs of the Senators concerned.

Mr. CONKLING said he had not noticed the absence of the Senators mentioned. He would be candid, and say that it was his own recommendations he wished to get at.

Mr. SCHURZ asked to have the resolution read, as he was absent when it was offered.

The resolution was again read.

Mr. TRUMBULL—When this matter of recommendations to office was brought to the attention of the Senate on Friday by the Senator from Indiana (Morton), I did not think it proper to reply to his observations; and when he stated that he had seen a tabular statement showing the number of recommendations made by me, I thought it was a business very much beneath the Senate and beneath any Senator to be prowling about the departments trying to find out how many recommendations were made by me or by any Senator, as if that had anything to do with the question then before the Senate. I shall make no opposition to this resolution. Let us have the investigation, and let it go further. I want to know who the sneaks are who go around to the departments, seeking information of this kind. I want to know at whose instance it was that the department officials have been engaged in making out tabular statements in reference to one of the members of this body. I want to know who called for that information, and whether it was required in reference to all the Senators, or only in reference to one. Let us see who these persons are that thus go prowling around the departments. Let us know from the heads of departments for what purpose this information was sought—whether for public purposes, or for personal, mean and contemptible purposes. I am willing to have this resolution pass; but I trust that civil service reform is not to be defeated, or corruption covered up by personal attacks on those who attempt to expose it. It is a matter of little concern to the people whether a Senator has recommended one or a thousand men for office; but it is of great importance to them to know whether improper, dishonest, corrupt men are put into office, and whether they are placed there for personal, mercenary and improper ends. I am willing that this resolution shall pass with the amendment that I have suggested. If there is anything to be made out of it, let the Senators from Indiana and New York have the benefit of it. So far as I am concerned, I say to those Senators, "Lay on, Macduff, and damned be he who first cries hold, enough."

Mr. CONKLING said he would accept the amendment proposed by Mr. Trumbull.

Mr. MORTON—The statement I spoke of on Friday was not made out at my request. I do not know at whose request it was made out, but I had seen it. I should not have referred to it, however, but for the insinuations the Senator (Trumbull) had made in regard to myself and others hanging on to the skirts of power for mercenary purposes. I have the right to denounce hypocrisy wherever I find it. If any man comes here and casts insinuations upon me that I am seeking for patronage, while he himself has gone as far as any one in recommending to office—has recommended in writing and verbally, has even gone to the Executive and demanded personally the appointment of relatives and friends, has been persistent, and has been importunate—if any such man comes on this floor and cast imputations on me, I have the right, without being criticised for it, to call attention to what he has done himself. In regard to prowling around the departments: I have been in only one department during this session of Congress. I do not go to the departments once a year, where, I suppose, the Senator (Trumbull) goes twenty times; and so far as sneaks are concerned, who is a sneak? Is it the man who comes here and casts imputations on Senators, impugns their motives, talks about their hanging to the skirts of power, and attempts to make party capital by charges of that kind, when he has been one of the most importunate seekers for office, and has urged the appointment of his friends, personally and in writing, time and again? Now, I said that I had seen a statement showing that the Senator had made one hundred and three recommendations in writing to this administration. I believe that statement to be true, and that it will be verified under the resolution offered by the Senator from New York.

The resolution went over at the expiration of the morning hour, and the Senate resumed consideration of the resolution to inquire into the alleged

SALE OF ARMS TO FRENCH AGENTS.

Mr. NYE addressed the Senate. He said that in this debate the purpose of destroying the Republican party had been openly avowed. This attack on the administration had been arranged by two distinguished Senators, and they flattered themselves that between them they would be able to "fetch Grant." These attempts to destroy the party would fail.

Mr. Nye then made a few remarks on amnesty, and concluded by reading from a California paper a parody on "Excelsior," with a refrain at the end of each verse, "anything to beat Grant."

Mr. FRELINGHUYSEN followed. He said he was sorry to see in a published speech of the Senator from Missouri (Schurz), after this charge, and after he had been silenced in reference to it, that he again repeated it.

Mr. SCHURZ—Does the Senator say that the charge has been disproven.

Mr. FRELINGHUYSEN—I certainly say it has been disproven.

Mr. SCHURZ—What charge does the Senator refer to?

Mr. FRELINGHUYSEN—I have stated it, sir, and do not propose to repeat it.

Mr. SCHURZ—Well, then, sir, I will say that, in my opinion, no charge of fraud that has been made has been disproven. Does the Senator refer to what was called a discrepancy between the War Department and the Treasury Department account?

Mr. FRELINGHUYSEN—I do.

Mr. SCHURZ—Then I misunderstood the Senator. I never made that charge, and I therefore did not retract it. And now I tell him that when I afterwards spoke of the mysterious disappearance of large sums of money, I meant nothing but this, that there was a much larger sum paid by France than was received by this Government, the commission of Remington being known, and inconsiderable in the aggregate.

Mr. FRELINGHUYSEN—Then the Senator puts his charge on a weaker ground than I supposed. I did not suppose that he would have taken that horn of the dilemma. I would have clung to the other.

Mr. FRELINGHUYSEN then reviewed the facts as previously stated by Messrs. Harlan, Wilson and Conkling, and insisted that the Government had carefully avoided selling arms to known agents of either belligerents, and had acted throughout in strict accordance with its neutral obligations. The Senator from Missouri must not be surprised at the sensitiveness of Americans for the interests of their country. In listening to that Senator's address, delivered in Chicago to his fellow-citizens of German birth, he (Frelinghuysen) had plainly seen the cord of sympathy that vibrated between the speaker and his audience whenever "Faderland" was mentioned; and the Senator must remember that Americans have some feeling for their own country. This was a question between Germany and America, or it was nothing. The Senator would not dispute that. If he should succeed in making out his case against this country, it would excite the animosity of German Americans; and if it would do that, must it not necessarily have the same effect on the Germans at home and on the German Government?

After further remarks, Mr. Frelinghuysen concluded with a eulogy on General Grant and the Republican party.

Without a vote the Senate adjourned.

HOUSE.

BILLS INTRODUCED.

By Mr. NIBLACK, for a Government building at Evansville, Ind.

By Mr. PARKER, for a bridge over the Missouri river at Booneville.

By Mr. MITCHELL, for a Government building at Racine, Wis.

THE SUPPLEMENTARY CIVIL RIGHTS BILL came up, but went over till next Monday.

CONFUSION.

On taking a vote on adjournment, great confusion arose. The Speaker said the condition of the House the last two afternoons was a scandal to legislation.

INDEPENDENCE OF DEPARTMENTS.

A bill was introduced by Mr. PERRY (Ohio) to preserve the independence of the several departments of the Government, and to fix the actual responsibility of appointments to office in the civil service and for removal from office.

REMOVAL OF POLITICAL DISABILITIES.

A large number of bills for the removal of political disabilities from persons in various Southern States were presented, and, at the suggestion of the Speaker, all were included in one bill.

Mr. CONGER inquired, as the names had not been read in full, whether that of Jefferson Davis was included.

Mr. ELDRIDGE suggested that all citizens of the United States be included.

Mr. GARFIELD moved that the bill, without further reading of names, be passed under a suspension of the rules.

Mr. MAYNARD called for the yeas and nays. Not ordered.

Mr. Garfield's motion was agreed to—115 to 13.

REMOVING NUISANCES.

Mr. FARNSWORTH offered a resolution instructing the Committee on Public Buildings and Grounds to report a bill for clearing away the horse car stables, car tracks, and other nuisances surrounding the Capital. Adopted.

SENATE BILL PASSED.

On motion of Mr. YOUNG, the Senate bill removing political disabilities from 3,624 persons named in it, was passed under a suspension of the rules, without being read and without the yeas and nays, which Messrs. Maynard and Killinger demanded.

REPEALING STAMP DUTY.

Mr. BROOKS (N. Y.), from the Committee on Ways and Means, reported a bill repealing the requirements of stamps on packages of jellies, mustards, sauces, canned and preserved fruits, vegetables and meats, &c. Passed under a suspension of the rules.

GERMAN AT WEST POINT.

Mr. MORGAN introduced a resolution, which passed, providing for the teaching of the German language at West Point.

SALES OF ORDNANCE.

Mr. LYNCH offered a resolution instructing the Committee on Expenditures in the War Department to inquire into the sale of ordnance stores in the late French and German war, with power to send for persons and papers. Adopted.

REDUCING TAX ON PIG IRON.

Mr. COX moved to suspend the rules and adopt a resolution instructing the Committee on Ways and Means to report a bill reducing the duty on pig iron to five dollars a ton or less, and insisted on a vote or a count by division.

The Speaker announced that the vote was 35 to 83—two-thirds in the negative.

Mr. COX demanded the yeas and nays, which were ordered.

The motion to suspend the rules and adopt the resolution was rejected—yeas 74, nays 99.

TIME EXTENDED.

Mr. KETCHUM moved to suspend the rules and pass a bill, which he reported from the Committee on Public Lands, extending the time for the completion of the Portage Lake and Lake Superior Ship Canal to the 3d of March, 1873. Agreed to and the bill was passed.

THE TOBACCO TAX.

Mr. LEACH moved to suspend the rules and adopt a resolution declaring it to be the judgment of the House that the tax on manufactured tobacco should be a uniform tax of sixteen cents a pound.

Mr. DAWES remarked that that would take sixteen million dollars out of the Treasury.

The rules were not suspended, by 80 to 68—less than two-thirds in the affirmative.

The House then went into Committee of the Whole on

THE DEFICIENCY BILL.

Mr. GARFIELD made a statement explanatory of the bill, which appropriates about six and a quarter millions. He accounted for the bill chiefly by the fact that for the first time the law requiring unexpended balances at the end of each year to be returned to the Treasury went into effect on the 1st of July.

Mr. BROOKS (N. Y.) took the opportunity, by opposing the deficiency bill, to speak of a coalition in the House between the representatives of the iron interest and a portion of the Democratic side of the House. He sent to the clerk's desk and had read a petition, which, he said, was one of the most important petitions ever presented to the House, being a petition from the wool manufacturers of New England, praying for the removal of duties on raw wool, and on bituminous coal, salt, iron and lumber required for machinery, and promising in that event that they will not only not ask protection for woolen manufacturers, but will raise the wages of their workmen. If there was to be any discrimination, he was in favor of relieving the wool manufacturers of New England.

The bill was proceeded with until the clause was reached repealing the law which requires the publication of laws in newspapers, that being ruled out of order, on the ground of its being general legislation.

The committee rose, and Mr. GARFIELD moved to suspend the rules so as to make it in order.

The House, without taking a vote on Mr. Garfield's motion, adjourned.

—Abraham Beal, for eighteen years past agent of the New York Prison Association, died on Sunday.

CHICAGO.

Woman in the Pulpit.

CHICAGO, February 26.—Rev. Dr. Patterson, pastor of the Second Presbyterian church in this city, preached last night on the part woman is called to take in the mission of the church, the theme being suggested by the recent admission of Miss Smiley into Dr. Cuyler's pulpit in Brooklyn. During his sermon he admitted the following propositions: That it was not in accordance with Presbyterianism that woman should occupy the pulpit; that such representation or relation was ever assumed by women or permitted to them under the Old Testament dispensation; that the Apostles and ministers chosen by Christ were all men; that the Apostle Paul equivocally forbids women to speak in public or usurp authority over man; that the position assumed by the speaker was, that the early church, with the exception of a few fanatical sects, expressly provided in the constitution of the Presbyterian Church that all elders and deacons shall be male members.

ARKANSAS.

Important Suit Decided.

LITTLE ROCK, ARK., Feb. 26.—The case of the State *vs.* steam tug Nellie Jones was decided by Judge Caldwell in the United States District Court to-day in favor of the claimants, Crown and Jones, the owners of the tug. The State libelled the Nellie Jones, claiming about $12,000 for arms taken from the steamer Hesper on the Mississippi river, and thrown into the river, by a band of disguised men, nearly four years ago. The arms were being imported to arm the State militia. The decision was based on the want of complicity between the officers and owners of the Nellie Jones and the persons seizing the arms.

CINCINNATI.

CINCINNATI, February 26.—A report has just been received here that the steamer United States has been blown up several miles below.

CINCINNATI, February 27, 1 A. M.—Nothing confirmatory of the reported accident to the steamer United States has been received. The place where it is reported to have occurred is so near the city that it is hardly probable that any serious disaster could have happened to the boat without definite information being received before this time.

BY MAIL.

THE Swiss Republic is revising its Constitution, and important alterations are being made. The Senate, or Standerath, has adopted without change an article of the revised Constitution as it passed the Lower House. By this, the period of liability to military service, which was from twenty to thirty-two, is extended to forty-four. Another important step is the concentration of military authority. This is now transferred from the cantons to the Federal Government. The Swiss forces, including army of the reserved and Landwehr, amounted in 1869 to two hundred thousand men. There seems no general tendency to make many sweeping alterations, so far, at least, as civil affairs are concerned, and many radical proposals have been rejected by large majorities. The Constitution in course of revision only dates from 1848.

A VIENNA medical journal gives an account of a marvelously tattooed man. He is an Albanian, very finely formed and about forty years old. Having got into trouble with the authorities of a district of Chinese Tartary, while working a gold mine in that country, and he was condemned to be tattooed. The operation was, of course, very painful. It lasted three hours a day for three months. When the man is stripped it appears as though his body was tightly enveloped in a webbing of rich Turkish stuff. From head to foot he is covered with dark blue figures of animals and plants. On the forehead are two panthers in attitude which would be heraldically described as "*regardant.*" There are fewer than 388 figures on the body. The skin is now perfectly smooth, and the perspiration is unimpeded. This remarkable person is now at Vienna, but will presently proceed to Berlin and London, and not improbably we shall have him here.

SUFFERERS from the "noble rage" of the theatrical amateur are occasionally heard to remonstrate, in other communities as well as our own. *The London Era* ventures upon the observations that follow: "The vitality of the theatrical amateur is something truly wonderful. In vain do we assure Tompkins that his voice has little more melody in it than is to be heard in the sharpening of a saw. In vain do we declare that Brown's face has no more expression than a peeled turnip—that Smith, whose legs are almost invisible, should not play romantic lovers in tights—that Jones, with his fat, round figure, broad face and goggle eyes, is not Shakespeare's *Romeo*—that Johnson, with his remarkable squeak, does not present the crook-backed *Richard*. Nothing depresses or disheartens the amateur; He has the adventurous spirit of a Livingstone, the heroic nature of a Nelson, the patience of a Job, the subtlety of a Macchiavelli, to compass his great end, which is—to be seen and heard upon the stage. A moderate computation of the number of theatrical amateurs at the present moment would startle some non-theatrical readers. Perhaps we should not be far wrong in assuming that five thousand of these harmless lunatics are spouting shouting, raving, giggling, and forgetting the language of many estimable authors, every week, under the impression that they are doing themselves much credit, amusing their friends, and advancing the Drama. The very best actor that ever trod the stage must once have been an amateur, but the finding one born actor in the midst of a thousand amateurs is as hard as the proverbial finding a needle in a stack of hay."

General Order Business.

Proposed Changes in New York Custom House—Nominations—Weather Probabilities.

WASHINGTON, February 26, 1872.

NEW YORK GENERAL ORDER BUSINESS.

General Arthur, Collector of the Port of New York, has written a letter to Secretary Boutwell, in which he expresses the opinion that a complete reorganization of the General Order business cannot be effected without additional legislation, and suggests that no steamship should be allowed to discharge a cargo under General Order within less than two full business days after her arrival. The Collector also says: It seems to me that the following changes in the existing system may be properly made: I propose to divide the water front of the city into districts, making four or more upon the North River and five on the East River in New York, and to designate one warehouse of class 3 in each district, to which all goods removed under General Order from vessels landing within the district shall be sent. I propose also to designate six or more similar warehouses in Brooklyn and one at Hunter's Point. In addition to this, I propose to permit the several steamship companies to select any class 3 store located in the district in which their ships lands as a warehouse for the storage of unclaimed goods arriving by their vessels respectively, subject, however, to the single condition that neither the steamship company, or any person connected with it, shall have any interest in or control over the warehouse so designated. It seems to me that any system which continued the control of the carrier over imported goods after they leave the ship, affords undue facility for frauds on the Government and increased difficulty in detection. To this letter Secretary Boutwell replies as follows:

Treasury Department, Washington, Feb. 26.—Sir—I laid your letter of the 23d before the President, and I am authorized to say that he approves the main features of your plan for the storage of General Order goods. The change should be made with as little delay as the nature of the case will permit. In the reorganization of General Order business, political influences and personal interests should be set aside. Having first made the rights of the Government secure, the President's wish is that the work shall be so arranged and conducted as to give the largest facilities to merchants with the least possible cost. The details of organization must be left to your judgment. Respectfully, Boutwell, Secretary.

WEATHER PROBABILITIES.

The barometer will probably continue rising on Tuesday, with clear weather and northerly winds from Pennsylvania to Maine, but remain stationary or falling, with easterly winds and increasing cloudiness, from the uper lakes to the South Atlantic and Gulf coasts; the low barometer in Kansas continue extending east and north-eastward, with threatening weather and possibly rain, from Arkansas to Illinois, south-easterly winds prevail on the Gulf coast. Dangerous winds are not expected for Monday night other than north-west winds in New England.

OUR WASHINGTON LETTER.

WASHINGTON, Feb. 24, 1872.

WHAT IS THE REPUBLICAN PARTY ACCUSED OF?

Firstly: That it has retained the same civil service system inaugurated by Washington, and the framers of the Constitution; and which has received the sanction of every President of the United States down to Grant.

Secondly: That there have been about the usual number of peculations in the service—particularly in the New York Custom House, which has at all times been peculiarly infected.

And lastly: That the Ordnance Bureau violated international law in selling 40,000 stand of arms to a party whom it might have known to be a sub-agent of Mr. Remmington, the French agent.

And this is the beggarly account of empty boxes presented by the indefatigable Senatorial clique. Suppose we plead guilty to all, what then? Are these trifling matters sufficient to induce any one to turn Democrat? And what guarantee can Sumner, Schurz & Co. give us that their new allies—Tweed, Belmont & Co. are any better?

A boiling down of the froth and the rhetorical flourishes of Schurz & Co. give the above as the sole capital wherewith to start a new party. It is pitiful to see the real interests of the country postponed so that Senators may display their peacock feathers, and like boys in a debating school, sharpen their wits at each others expense. Of course, a defence is required of administration Senators attacked, but it is no wonder sensible people everywhere are becoming disgusted with an exhibition of personal spite and vanity that belongs upon the stage rather than the Senate Chamber.

In my opinion these obstructionists who care nothing for the real interests of the people and have no sympathy for them will receive a set back at the ballot box in November next which will be a warning to others, if not a useful lesson to themselves.

"BARKIS IS WILLIN."

Senator Trumbull's emphatic endorsement yesterday of the recent Missouri convention platform, which is a conglomeration cooked up especially by and for the Democracy, indicates where he, as well as Schurz will probably be found in the Presidential campaign. Yet there is so much buncombe used in senatorial controversy during Presidential year, that it is quite likely the Senator is talking merely for effect upon readers of congressional proceedings. It is not yet clear whether the Democracy will indorse the Missouri-Cincinnati platform or that of the Davis' workingmen's. Much will depend upon the success of the merging process that is now anticipated in some quarters, by which Davis and his platform will be accepted at the Cincinnati National Convention. The Illinois Senator is ambitious, and will keep an eye to the windward until he sees the upshot of the movement to give the lead to Davis, and in case it succeeds he will continue to claim a place in the Republican ranks, for then it will be impossible to sustain the liberal Republican issue, and there will be no opening for vaulting senatorial ambition outside of his old party.

Senator Morton hit the centre of Trumbull's gravitation when he charged upon him that he had stepped out from the ranks of the Republican party, but had stopped within easy returning distance, with his back chalked all over "Barkis is willin'." He had justly accused him, as he had already charged Mr. Schurz, of remaining in the party to betray and destroy it if possible, and he appealed to him to stand up now and say that he had abandoned the Republican party.

NEW YORK CUSTOM HOUSE REFORM.

Neither Sumner, Schurz nor their Democratic allies could have inaugurated the searching investigation which has been made. It was the Republican majority who voted the committee and are entitled to the credit of refusing to shield any one, though professing to be Republican, if he was guilty of corruption.

The change of the head of the Custom House which is impending, means thorough and earnest work. The difference between Grant and his defamers is the same as that between him and some proclamation Generals, that he professes nothing but does the work, while they profess everything and do nothing.

A PARTY WANTED FOR A CANDIDATE.

The Workingmen's Convention met at Columbus, Ohio, on the 22d inst., and nominated Hon. David Davis, of Ills., for the Presidency, and Hon. Joel Parker, of New Jersey, for the Vice Presidency. Mr. Davis is almost unknown to fame, though a Judge on the Supreme bench of the United States. The platform is intended to please everybody, but is most likely to please nobody, as it has in it planks representing principles which are the antipodes of each other. It is pretty well gotten up for doing that impossible thing of safely carrying water on both shoulders. The active men who have worked up opposition to Grant will not forgive the Workingmen's Convention for thus suddenly blocking their way to power.

ENGLISH AMERICAN TROUBLE IN THE CABINET.

There was an extraordinary and extended session of the Cabinet yesterday. Just previous to their meeting Hon. Charles Francis Adams was presented by Mr. Fish to the other members of the Cabinet with whom he had some conversation and retired before the deliberations commenced. Earl Granville's dispatch on the subject of the American case as submitted to the general conference is represented as being entirely friendly in spirit. It is a simple statement that her Majesty's government did not understand that consequential damages were covered by the treaty of Washington or were to be submitted to the Geneva conference. It does not demand a modification or withdrawal of any part of the case, and does not indicate belligerent feeling. The reply to it will probably be written out and presented to the Cabinet next Tuesday, and if approved it will be mailed in time for next Wednesday's steamer.

INTERESTING ITEMS.

Maine, New Hampshire, South Carolina, Indiana and Kansas, have recently held Republican conventions, which have unanimously indorsed General Grant, and recommended him for re-election.

The House Committee on Military Affairs has under consideration a bill prepared by General Slocum, for the consolidation of the Commissary, Quartermaster's and Paymaster General's Departments.

Senator Nye has the floor for a speech on Monday, and will make the fur fly from some of the fancy feathered gentry. Besides brimming over with fun and jokes he has a way of putting things that tells home in whatever direction he will with a force not excelled by the most critical logician. He is often in earnest when joking, the most of his adversaries have good reason to know.

A delegation of prominent citizens of Wilmington, North Carolina, had a hearing before the sub-Committee of Commerce of the House yesterday morning, and urged a liberal appropriation by Congress for the purpose of removing the bar from the mouth of Cape Fear river.

CONFIRMATIONS.

The Senate in executive session yesterday confirmed the following nominations: William Brisbane, of Pennsylvania, Consul at Ghent.

Henry A. Eastman, Register of the Land Office at Prescott, Arizona.

John G. Gosman, Agent for Yankton-Sioux Indians in Dakota. AGATE.

CRIME.

Brutal Murder.

SCHUYLKILL HAVEN, PA., Feb. 26.—Last night a farmer named Daniel Kramer, residing about nine miles west of Auburn, Schuylkill county, was brutally murdered and his wife left for dead. Mr. Kramer's son, on entering his father's house this morning, found his mother on the bed with her skull fearfully fractured and still living, but unable to speak. The father was found about one hundred yards from the house with his brains beaten out and frozen to the ground. No trace of the murderers has yet been discovered. The murderers robbed the house. Mrs. Kramer cannot recover.

Later—Mrs. Kramer has remained unconscious during the entire day, and no hopes are entertained of her recovery. The house was ransacked from top to bottom, and is is estimated that from $800 to $1,000 in gold and silver, and considerable paper money was taken. The victims were each between fifty and sixty years of age. Kramer was a highly respectable farmer. No clue to the murderers has yet been obtained.

BRIEF TELEGRAMS.

—Captain Edmund Laurier, of the U. S. Navy, died in Baltimore on Saturday.

—Johnathan Meredith, the oldest member of the Baltimore bar, died on Sunday

—The statement telegraphed from Washington as to the offer to settle the Alabama claim is said to be untrue.

—The Louisville Hotel property was sold yesterday to the old managers for two hundred and ten thousand dollars, and is to be refitted.

—The large sugar refinery of Bartol & Baker at Marius Hook, Pa., was entirely destroyed by fire on Sunday morning. Loss $150,000; insurance $105,000.

—The New York *Herald* has an article purporting to be an exposure of the attempts of the Erie officials to purchase the influence of the newspapers in their favor.

—The house of Henry Spinney, in Yarmouth county, Nova Scotia, was burned on the 17th inst. His children perished in the flames. Mr. and Mrs. Spinney were absent on a visit.

—A Washington dispatch says that it is rumored that our Government has authorized the offer to be made to the Gladstone Ministry to settle the Alabama dispute for fifty millions of dollars.

—Captain Rogers, of Detroit, arrived at Memphis yesterday with a requisition for John Hart, who is wanted at Detroit, as well as at Chicago and New Orleans, to answer charges of extensive forgeries.

—The Louisville *Ledger* appeared yesterday as an evening paper, published under the management of L. G. Matthews, with a portion of the old editorial corps. The new arrangement meets with considerable favor.

—Mail advices state that a panic took place at the Berlin Stock Exchange on the day the news was received from London of the construction placed by Great Britain on the Washington treaty, and that American stock could not be sold at all.

—William Tull, a baggage master on the Short Line Railroad, is at the house of his father-in-law in Louisville, in a very critical condition, from injuries received by the recent accident. He will probably lose the use of his right hand from a burn, if he recovers from the other wounds, which is extremely doubtful.

—Deputy Marshal McCausland left Fargo, on the Red river, on the 18th inst., with four prisoners, whom he was to take to Fort Pembina. When near Grand Forks, about one hundred miles north of Fargo, two of the prisoners escaped and McCausland gave chase, since when nothing has been seen or heard of the three. There is no doubt but that they perished in the snow storm of the 23d, or that McCausland was foully dealt with by the two desperadoes.

Sale of the Empress Eugenie's Fans.

The Empress Eugenie's collections of fans, which are for sale, is now on private view at Mr. Harry Emanuel's, in Bond street. The Empress rivalled Queen Elizabeth and Marie Antoinette in her taste for regal luxury in fans, and contributed not a little by her example to the revival of treating the fan as a costly work of art, which has extended to this country, and which led to the special exhibition of fans at South Kensington in 1870. Many of the fans of which she has now dispossessed herself were seen at that exhibition to which she contributed some of the choicest examples. Queen Elizabeth's wardrobe included twenty-seven fans; the Empress' collection includes nearly fifty, and probably exceeds them as much in beauty and costliness as in numbers. Among the most curious is a fan painted on vellum by Camille Roqueplan, dated the 30th of January, 1835, and which formed part of the Empress' corbeille de marriage. It is charmingly wrought in the style of the sixteenth century, and in the centre of the elaborately-carved sticks are the Imperial crown "supported by cupids," and the initials E. N., in gold. The reverse, by Franco, is an equally good example of flower and fruit painting.

The gem of the collection is a fan which has the additional interest of having formerly belonged to Marie Antoinette. The subject is "La Fontaine d'Amour;" the guards carved, nearly covered with enamel and diamond ornaments, the sticks of elaborately pierced ivory inlaid and groups and figures of silver and gold. There are some very good examples of Louis Quinze fans, some of which have been remounted on modern carved and pierced sticks of variable merit, inlaid with gold, ornamented with groups of figures and the Imperial cypher. There are among the mounts signed works of Voillemont, D. Moreau, Defalvres, Gulmbet, Aman Cyb, Regmier, Roqueplan and Franco. Some of the Chinese fans exhibited are souvenirs of the expedition of the Count de Palikao. In some of these costly and artistic trifles the sticks are mounted with enamel and precious stones, and rising, as some of them do, to a value of several hundred pounds, they afford a very fair notion of the costliness of Royal toys. To the collection is added some of the most remarkable of the "ombrelles" of the Empress; one, which is valued also at some hundreds of pounds, is the well known parasol which was the envy and wonder of the Parisians, surmounted by an Imperial crown in purple enamel and diamonds, and having a handle of Louis-Seize work in jewelled and raised gold and green enamel. To ladies the combinations of laces and silks, carved ivory and tortoise shell, no doubt present intrinsic attractions which we cannot pretend to find in them.—*Pall Mall Gazette.*

MILL PROPERTY.
A GOOD
Grist and Saw Mill
AND
BARREL HEAD FACTORY.

This property is located within about 30 miles of Toledo, Ohio, on the line of the Flint and Pere Marquette Railway. The surrounding country is settled by an industrious and intelligent people. Having been without railroad connections until the past year, they have not culled the timber, and to any party wishing to go into the hardwood lumber trade no better point than this can be found. The demand for such lumber in Toledo is far ahead of the supply and is growing yearly. The F. & P. M. Road also opens up the Saginaw valley to the supply of feed and flour from the mill. Five acres of land, three dwelling houses and other improvement with the mill. Satisfactory reasons for selling given on application.

BONDS at Frankfort 95¾.

PETROLEUM at Antwerp 44¼f.

GOLD closed in New York on yesterday at 110¼@110⅜.

BONNER'S famous old mare Princess has been making a sensation in New York by trotting a mile in 2:25. Tammany's old Mayor Hall is by no means so quick in making tracks.

IN about two or three weeks it will be the season for remarks concerning Winter lingering in the lap of Spring. It is hoped that an effort will be made to amend the game laws so as to limit the season for this sort of sport as much as possible.

YESTERDAY we received eleven San Francisco *Bulletins* at once. This was owing to the late snow blockades on the Union Pacific Railroad. Eleven days' news at once is too much of a good thing, and we protest against snow blockades in the future.

IN THE death of Abraham Beal, the Philadelphia philanthropist, the country has lost a most zealous Christian, and one who has added largely to the interests of humanity and morality by his devotion to the interests of prisoners held behind the locks and bars of jails and penitentiaries.

THE "GENERAL ORDER SYSTEM" will soon be among the other things which have received their quietus from the present administration. As fast as these old Democratic grabbing institutions are unearthed, the order is issued by President Grant for their discontinuance. This is practical reform.

JOHN BRIGHT has been so shattered by his recent illness that his physicians protest against his taking any active part in politics again. His hair has become quite white, and the old elasticity of manner and robustness of feature have given place to a careworn bearing, and haggard, pinched appearance. The great champion of reform and progress must needs content himself with looking on while others wear the harness and wield the weapons in the fight.

THE NOMINATION by the President, of Seth J. Comley to the position of Collector of Philadelphia to succeed Col. Forney gives satisfaction, we learn, to all classes of citizens. He has been President of the Commercial Exchange and is a prominent merchant in that city. He is in every way competent and worthy and was urged by the leading merchants and citizens. Will the opposition papers, deal justly with this latest effort of the President to secure the right men to fill important offices? We shall see.

WE SINCERELY hope that our Irish friends will not determine on the celebration of St. Patrick's Day on the 17th of March, which falls on the Sabbath. Such parade, if not affording grounds for a portion of our community thinking that they are violently insulted, according to their own belief, would be bad taste, and we hope it may be delayed. The idea of the sanctity of the Sabbath is not a new one, and to encroach upon it is a sin against society. We all live together, and are friendly with each other, and by no idle display should our relationships be disturbed. If the contemplated parade shall be held, there will be hard feelings produced, such as we would regret, and such as the offending parties will wish had never been generated. We confidently rely on the Irish element, and hope that the desecration of the Lord's day by civic procession, will not rob them of the high regard in which they are held by their neighbors.

THE temperance cause has received a strong impetus lately in different portions of Europe. Alexander of Russia is stated as having lately announced himself a teetotaler, and societies are forming throughout his dominions for the purpose of restricting the sale of strong drinks. In England a similar movement has been organized, which is spreading with wonderful rapidity, and enlisting the efforts of some of the leading men in the country. At Exeter lately an effort was made to break up one of the meetings called by the friends of temperance, and a bloody riot was only prevented by the interposition of the police. Missiles were hurled by the rioters at the Bishop of Exeter and Sir Wilfred Lawson, who occupied seats on the platform. "The war is not being waged," we are told by *The Echo*, "against inebriates or the small rum sellers, but against the rich and prominent manufacturers, who furnish the poison which murders and destroys."

THE NOMINATION of Judge David Davis, of the United States Supreme Court, to the Presidency, by the so-called Labor Reform party, is noticeable for one or two reasons. First, the Judge has been all his life a lawyer, and probably never worked a day in his life, with anything, except vexatious questions of law. Second, his nomination was agreed upon by some of the leading political wire-workers of Washington months ago, and he is considered by them about the weakest candidate that could have have been selected. Third, he was understood to be acceptable to the so-called Liberal Republicans, (Republican only in name) who will be expected to accept him as their candidate, in case it is deemed advisable to oppose the election of Grant and Colfax. Should this be done, poor old Democracy is expected to bring up the rear, by endorsing David, and adopting him as the candidate *par excellence* of the unsubdued and unterrified "Dimmycrats." All this trouble is gone to, by the desperate politicians in convention assembled, in order to compass the defeat of the tried and true President and Vice President, and all the wind mills at Washington are set a going to inflate the movement and give it the appearance of life.

WE cannot see that the opponents of General Grant in the United States Senate have effected anything by their charges brought against the Government for selling arms during the Franco-German war. It is universally admitted that the abstract right to sell war material, or anything of proper commodity, cannot be restricted, no matter what nations may be engaged in war. If France really purchased, through unknown agents, some of the arms offered for sale by the War Department, Germany had the same privilege of buying, and it was her affair entirely, whether she did so or not. If she had wanted the arms, or had wished to prevent their falling into the hands of the agents of France, she should have exercised her undoubted privilege of buying through an agent, who was known to be an American citizen, and not known to be employed by a foreign power. This is plain, and how Mr. Schurz is going to injure General Grant in the eyes of the *American people*, we are at a loss to see. He may possibly embitter the *people of Germany*, by arousing their prejudices through a misrepresentation of facts, but we submit that this is hardly proper work for an American Senator, paid for advancing the interests of the United States.

WE DO NOT see that any immediate practical results are to flow from the recent Cincinnati Convention on the Ohio River Improvement question. We hoped for more than was realized from that well planned movement; but there appears to be something acting like a hold-back to this important national undertaking. We confess, that we lost some heart months ago, when we discovered that the coal men were not enlisted *heartily* if at all, in the work; because first, they were the more directly interested in the improvement of the Ohio, and second, because we had looked to them for the bulk of the ways and means to carry out the project. We announced at the time, our doubt, as to whether the larger coal operators cared much about the matter, if indeed they did not prefer to have the river remain in its present condition, as more serviceable to their peculiar business, and the mode in which it was conducted. But, we still hoped that the other large branches of Pittsburgh industry, with the assistance and co-operation of other cities might inaugurate some practical financial scheme, through which this long neglected highway might be made available through out the year. Is there any prospect of this at present? We confess to some doubts.

WELL DESERVED.

In his annual report, presented to the stockholders of the Pennsylvania Railroad Company, at their meeting held in Concert Hall, Philadelphia, on this day week, John Edgar Thomson, Esq., President of the Company, paid a well deserved compliment to J. N. McCullough and William Thaw, Esqs., of this city. Speaking of the organization of the Pennsylvania Company to whose management have been committed all the lines of the Pennsylvania Railroad west of Pittsburgh, Mr. Thomson uses the following language:

The general management of this extended property, now amounting in the aggregate to 3,200 miles of railway, has been entrusted to J. N. McCullough, Esq., who had gained an enviable reputation by his energetic and judicious administration of the business of the Pittsburgh, Fort Wayne and Chicago, and Pittsburgh and Cleveland Railways. All the railways committed to his management have during the year been able to meet, from their own revenues, their obligations to their creditors and lessors, except the Little Miami and the Indianapolis and Vincennes, while in the aggregate they have yielded reasonable profits to the lessee. The lines that have fallen short of their obligations, it is believed, from the development of the local resources of the country traversed by the last named, and the completion of the bridge across the Ohio river at Cincinnati, at the southwestern end of the first, now nearly ready for use, will also in a few years become profitable to the lessees.

The adjustment of the rates of freight and the management of the finances of this company have been committed to Mr. Thaw, Vice President, whose long experience in transportation eminently qualifies him for the performance of the duties that have been assigned to him.

All who know these gentlemen will very heartily endorse the above compliment.

FRANCE.

Political affairs in this distracted and unfortunate land again begin to wear a disturbed aspect. The Government established by the volatile egotist, and would-be autocrat Thiers, never a substantial or satisfactory one, begins to exhibit certain signs of early dissolution. The gathering of the deposed kings, including the claimants to the throne of France, at Antwerp, is evidently viewed with some alarm by the Assembly, the members of which, like all Frenchmen, stand ready to shout "*vive*," to the man, who at the time appears to ride on the topmost wave, be he emperor, king, or peasant. Thiers lately, has frequently given reason to believe that he is tired of his office, and the responsibilities and duties it imposes; or, fearing the threatening revolution, which sooner or later *must come*, else all history of this people belies itself, he desires to seek retirement, while he can do so, without risking his neck.

Napoleon is not without strong friends in France—those who believe that through him and his house her destiny must be accomplished. These are largely, men and women of influence and character, and they have not been idle a moment since the fatal day at Sedan. Their chief, who knows better than any other Frenchman the feelings of the French people, has, whilst smiling at the frantic efforts of Thiers to keep up the ephemeral existence of the ghost of a Republic, never for a moment despaired of his success in attaining his title and his seat as Emperor of France. To the careful student of history, this fact has no uncertain significance. A man with the keenness of perception, and the almost prophetic vision, which have signalized his conduct, when mountains of obstacles stood in his path, whose wonderful gift of patience, and almost miraculous endurance and pertinacity in the face of the most malignant, unscrupulous, though successful opposition, can hardly be supposed to blind his eyes to manifest indications of public feeling, or allow himself to be deceived as to the way that sentiment was drifting. If Napoleon is still plotting for the Imperial Diadem, we may be assured that success will crown his effort, should his life be spared. He stands to-day, in the eyes of his people, as their safest, most successful, (though latterly unfortunate,) monarch. The masses of the French nation believe in the name of Napoleon, and are held spell-bound in times of public excitement as if by the mere magic of the sound. Under his rule France flourished and increased in wealth, population, arts and sciences as she had never done before. Through his wisdom in council, for twenty-two years, the Empire stood at the head—master of Europe—and a people who have been taught to almost worship National glory, cannot forget or overlook this pregnant fact.

But there is yet another element in this struggle, all powerful, yea greater than the throne itself, or the people, which must not only be consulted, but may possibly be looked upon as the arbiter of the future of France. The government which promises to prove the most stable, and at the same time the most peaceful, will best suit the ends of France's conqueror, proud, victorious, and great Germany. The former is yet in her bonds, and much is due from her to the latter; it will therefore be necessary for Germany to exercise her unquestioned privilege of indicating whom she prefers to sit on the French throne or preside over the Republic. This she will do, and unless the cable misinforms us, the first steps have been taken to secure beyond a peradventure the perfect compliance with her dictation. Should the Republic dissolve, the empire, with Napoleon, will be re-established, and this with the assent of Germany, as well as the French people. Under this *regime*, supported by the army of the conqueror, France will begin a new period, and we believe a prouder and more successful one, than any that has hitherto marked her career.

THE FEE BILL.

HOUSE OF REPRESENTATIVES,
HARRISBURG, Feb. 26, 1872.

To the Editors of the Gazette,

GENTLEMEN: From some remarks in your paper, and some in the *Dispatch*, I find there is some misapprehension of the character of the supplement to the Allegheny county fee bill, which passed the House last week. Some friends of reform are alarmed for fear that there has been a step backward taken, and that the supplement is a repeal or an important modification of the fee bill now on the statute books.

I therefore take pleasure in saying that the supplement which passed the House, repeals no part of the fee bill of last winter which affects its merits in the least. All the machinery which compels accurate returns, which prevents illegal fees, and which confines the emoluments of the officers to a fixed salary, remains just as before. The only changes are those which relate to fees, making them more specific, providing for the payment of the Prothonotary, for the past, and the increase of some salaries. This latter, the increase of salaries, I did not favor, but as I am satisfied that what the county will make out of the offices, when the law is in full operation, will more than pay the increased expense, I did not think it best to resist to the endangering the settling of the controversy on a basis so honorable to myself, and which preserved intact the grand reforms inaugurated by what is technically known as "White's Fee Bill." Your neighbor of the *Dispatch* says that my bill is a failure, and that it is virtually repealed by the supplement. This is an utter mistake. The bill of last winter, in its reformatory powers, is not interfered with in the least.

If this supplement becomes a law, as I hope it will, and if the whole system, as now inaugurated, is suffered to remain, Allegheny county will have the best system of any county in this State, or probably in the United States.

Yours, D. N. WHITE.

MATTERS OF MOMENT.

"THE happy man's without a shirt" said old John Heywood. How much happier then would the Senate of the United States be if it had no Schurz.

STRAWBERRIES are ripe at Galveston. But the Galvestonians need not be proud as they would be just as ripe here if we had had as much warm weather.

A NORTH CAROLIONESS eloped recently with three men at once. She had her hands so full that she had to carry her snuff stick in her mouth the whole time.

BALTIMORE has strawberries from Cuba. They are real imported Havanas, and have the true West Indian flavor, and also, it is needless to remark, the true imported price.

THE Louisville *Courier-Journal* came to us on Sunday morning badly burned at both ends. We cannot account for this at all, although we should not have been much surprised if the fire had come only at its latter end.

MR. YOUNG was a poet who used to think in the night, and once in an epistle to Mr. Pope he made use of the line, "and oftener changed their principles than shirts," they couldn't oftener change their principles than Schurz has, though.

LITTLE ANNA ELZER, who sang here early in the winter, as the wonderful phenomenon, has come out in opera in New York. She played little Ann in *Freischutz* and she made a very good *little Ann or else her* critics did her an injustice.

CHICAGO is about to put up a museum, opera house and lecture hall which is to be the most magnificent affair ever known. The building will be commenced in the summer and able philologists are already hard at work mining words to be added to the English language before it will suffice as a medium for the description of the glories of the establishment.

THE *Freiheits Freund* had only two columns of editorial, on Saturday, devoted to the sale of arms to France, and matters therewith connected, and yet we do not accuse that journal of inability to comprehend the vast importance of that subject. A comprehensive writer might, with care, manage to say almost enough to weary his readers in only that space.

"CERTAIN Washington journals that bask in the President's favor and fatten on the Government patronage, copy, with approving comments, a recent article from Col. Forney's *Press*, which recites the self-denying patriotism of Senator Benton." Thus the New York *Tribune* sneers. It does not regard self-denying patriotism with favor. Until Grant is renominated there is always a hope for Greeley.

CUPID must be dead, or at least have retired from business, for we never hear anything about his arrows and quiver now. But he seems to have a successor who is far more modern and dangerous; scorning arrows he uses pistols, and his victims are about two a day. Falling in love now seems to necessitate being shot by your lover, or a father, brother or distant cousin, than which, it would be far safer to follow the foreign fashion and marry for convenience, for it *is* convenient sometimes not to be shot.

THE New York *Tribune*, speaking of the students of Yale College who are editing a little paper, says: "We were every whit as positive and conceited in our day; quite as apt to cackle over our new-found ideas, and to thrust them at everybody we met with loud logic; quite as certain that the world was out of joint and that we were to be made A. B.'s to set it right." Which we are sure we should never have doubted. It *is* singular, though, how some persons preserve, unimpaired, the characteristics of their youth to the last.

GREELEY wants to know why President Grant does not gain the gratitude of the country by withdrawing from the candidacy that does not seem for the good of the country. Why, asked Jeff. Davis, will you not withdraw from a fight which does not seem to be for the good of the country? Why, says the Pope to Victor Emanuel, will you not withdraw from Rome, when by so doing you would serve the country? If Mr. Greeley were in Grant's place, admired and respected by millions, he would scarcely regard the growl of envy, disappointment and wounded vanity as the voice of the country.

THE *Saturday Review* argues that baldness is a privation peculiar to this generation, and mentions the hirsute opulence of Lamb, Scott, Coleridge, Wordsworth, Milton, Campbell, Bentham, and others to prove that in former ages "Men who had achieved fame had still hair enough to be regarded as a feature." But the bald-headed have their instances too. Shakespeare was bare enough of brow to counter balance all those others and to go still further back, a certain famous gentleman of a very old school, let loose a woman's suffrage convention of bears among a pack of children who mocked his hairless temples.

ALL of us who were born before the rebellion of '61 had put the revolution of '76 out of our heads, will remember the story of Champe who was detailed to desert to the British ranks in order to try to capture Benedict Arnold after his treason. Champe performed his work well, although he did not catch Arnold. And now a descendent of his champs this bit of history between his insatiable teeth, and asks Congress to reward him for his great grandfather's deeds. We would gladly see him rewarded for the virtues of his antecedents, but unfortunately a lady of his family, in days gone by, stole an apple in a garden, and the punishment due that crime ought to counterbalance the reward of Champe's bravery.

THE pastor of one of the leading Methodist churches south, in Baltimore, has been accused, by a frail girl of good position, of having been her seducer. The girl says he has also ruined some half a dozen other young ladies, all of whom vigorously deny the assertion. In the mean time the preacher was called upon and interviewed. He expressed the greatest surprise, and, pressing a Bible to his breast, fell upon his knees and swore the girl lied, and the next night he gathered up his family, like the Arabs, and as silently stole out to Ohio, which certainly looks very bad. The accused is said to be one of the most eloquent preachers in the Methodist church south, and is past the prime of life, having several children and grand-children living.

THE abandoned Forney is the theme of all truly independent anti-Grant papers just now. They always thought he was a villain of the deepest dye, but now they know it, for has he not, in the most cold blooded manner, invited President Grant to tea, and has not Grant, in the most truly terrible style accepted the invitation! No President ought to accept an invitation to tea, it proves conclusively that he is a drunkard, a thief, a smuggler, an abandoned criminal and any thing else that you have a mind to have proved. The logic of it is this. If a man accepts an invitation, he accepts, and a man who accepts might accept a bribe, but the receiving of bribes is a crime, and murder is a crime, therefore the man who accepts an invitation is a murderer. The same can also be proved of the man who *receives* an invitation, consequently let us air our French and cry: "*A bas* Grant and Forney!"

NILSSON, Capoul, Marimon, Tietjens, Alboni and Trebelli Bettini have been engaged by Mr. Mapleson for the coming opera season at Drury Lane, London.

FARM, GARDEN AND HOUSEHOLD.

BROADCAST CORN FODDER.

[From the Baltimore American.]

The precaution taken by many farmers last year to sow corn broadcast for feeding stock, when it was apparent that the hay crop would be cut short, had the effect of saving many dollars to those who had the forethought to adopt the plan. We are well satisfied by our own experience in the premises that there is nothing more nutritious, or at least, more ravenously devoured by cows than the green fodder thus raised. It is not, perhaps, as fattening, but it gives a keener appetite, and produces an increased flow of milk over other substantial food. We had a lot which, from time to time, was thus plantnd with corn for soiling, and our only regret at the end of the season was that we had not extended our operations. A difficulty is found with some in curing this fodder for winter use. A careful Conneticut farmer, who tried the sweet corn, in a communication to the *New England Farmer*, under date of December 22, says that up to that writing he had given to his cows in milk very little fodder, except sowed corn, and never has had them do as well. Some part of this corn was harvested while coming into bloom and the balance while in bloom, and he was unable to see any difference in the quantity of milk produced by either. A considerable portion of the corn was sweet corn, and was harvested and cured in the best possible manner, some of it by setting it in thin layers in the stable and condensing it as it became dry. He says, "In my humble opinion, no feed can make more and better milk than sweet corn cured in this way." He suggests that with good care corn might have been as well cured by setting it up on each side of a pole in thin layers, adding a layer as it got a little wilted, until a mass of it had accumulated so thick that no rain could wet it through. At any time when a storm was coming on, put on a layer of green corn to shelter that part that is partially cured, and when put in the barn it will be as bright and beautiful as the best rowen.

We hope that in the coming season this provender will be more extensively raised by all who have milch cows, as it will be found at the same time the cheapest as well as the most nourishing, and, we think, healthy food for milch cows.

A Vermont correspondent of the Germantown *Telegraph* thus gives his experiments upon this subject and his mode of cultivation:

In the first place a plot of ground for the express purpose of raising fodder corn ought to be in a high state of cultivation and pretty free from weeds. The best place or plot that I have tried was a mucky hollow underdrained, being composed mostly of vegetable matter to the depth of three feet or more, one-eighth of an acre of which I plowed and spread on one-half of a cord of good fine manure and harrowed it in thoroughly. Then planted or drilled the seed in with my corn planter, the rows two feet apart so as to cultivate it; planted twelve quarts of seed on the 3d day of June, and then took my field roller and rolled it; it came up in four days and grew very rank. I ran the cultivator over it twice, taking one-half hour each time; my man spent an hour following me each time with his hoe, which was all that was done to it. I cut it up, which was just as the tassels began to blossom. It grew ten feet high, and there were three hundred bundles that averaged twenty pounds each, green, making six thousand pounds; and when dried they weighed eighty pounds each; or raising nine tons to the acre of excellent dry fodder which I believe to be worth more per ton than the best hay that I ever fed to milch cows, for they ate every particle of it, and gave a large flow of rich milk while eating it. The corn was the common yellow, but I shall plant sweet corn for fodder next year. Should have done so this year but could not get the seed.

HOW TO MAKE A CITY GARDEN.

Take barrels and bore holes around the middle, and one hole large enough to admit the nose of your watering pot. Fill the barrels with stones as high as the rows of holes, and fill it with good, rich fine earth to the top, in which plant cucumbers, melons, squashes, tomatoes, etc. One barrel will be enough of each kind.

Be sure to have one flat stone lean over the large hole, where you will pour in the water until it runs out of the holes you have made, and which will prevent the earth from filling this large hole up. Range the barrels around your yard, and plant your seeds. Keep the barrels filled with water up to the holes, and you have all the requisites for rapid, healthy growth—air, heat and moisture. You can raise all the vegetable you will need, in the greatest perfection, and they will last until late in the autumn, as they can easily be covered on frosty nights. Cucumbers and tomatoes may hang over the barrels, cutting them off when they reach the bottom. Melons may be tied to the wall or fence. The stones have an important service in holding up the earth, and absorbing the heat during the day, which they give out at night, keeping the water at an even temperature. You will be astonished at the result if you have never tried it. —*Prairie Farmer.*

COLD FRAMES.

In the absence of materials for making up a hot-bed, we would advise the use of a cold frame, which is so easy of construction and management, as to be available by all. The cold frame cannot be sown so early as the hot bed, depending as it does, on the sun's rays for its heat. The middle of April is, in our opinion, sufficiently early in this latitude, to commence its use. Seeds then sown will make plants strong and vigorous for transplanting by the time the danger from frosts shall have passed away. In fact, we prefer those plants grown in cold frames to those grown in hot-beds. Cold frames require very little trouble or labor. Prepare a good rich soil in the sunny part of the garden, thoroughly pulverize and level the same; put on the frame and keep it tightly closed for a number of days, in order that the soil may become thoroughly warmed. The seed may then be sown in drills, as advised for the hot-bed. In the management of the cold frame, the cold frame should be kept closer than that of the hot-bed; owing to the absence of the heating material which the latter contains.

OPEN GARDEN SEED BEDS.

A seed bed may likewise be made later in the season in the open garden, by taking a little extra pains in preparing the soil making it rich and suitably light for the seeds.

Select a warm, sheltered spot, lay out the bed three or four feet wide, and of any length desired. Sow in drills, keep moist by frequent waterings, and give the advantage of a little shade with thin cloths or newspapers, until the plants are up; after which, they will merely require watering until transplanting time. The advantages of a seed bed are, that more can be given to a greater variety of flowers in a small space, than if sown in various parts of the garden.

ALSIKE CLOVER.

Mr. M. G. Peck, Pontiac, Mich., seeded some thirty acres of land with Alsike clover, a year ago last spring, with wheat. The season was extremely dry this year, and the crop was small. In a letter to the *Michigan Farmer* he says: On the clay, where the land was moderately rich, it was small; on the light loam, still smaller, in fact nearly nothing; on dark loam inclining to muck it was unexceptionable. It makes a superior article of hay, very much resembling white clover in every respect, except that, under like circumstances, it will grow much taller. All stock like it; it is quite free from dust, and will stand more hard usage from the weather after being cut than any other grass with which I am acquainted. It matures at the same time as timothy, making it a good grass to sow with it. After growth was nothing compared with my June clover.

TO PRODUCE LARGE STRAWBERRIES.

Remove the soil around each hill to the depth of half an inch or more, more, without disturbing the roots, then spread evenly over an arear of twenty inches in diameter a pound or more of finely pulverized linseed meal or oil meal, and cover it with mellow soil, then spread a mulching of hay or straw two inches deep over the entire surface between the hills. Should the weather be warm and dry a liberal supply of warm water daily will greatly promote the growth of both vines and berries. Pull up the weeds and grass among growing strawberries rather than cut them up with hoes, as a system of roots is formed near the surface of the ground which should not be injured with a broad hoe.

PREPARED CORN COBS.

A very convenient kindling wood is made in France from corn cobs, by immersing them in a mixture of sixty parts of melted rosin and forty parts of tar; after which they are taken out and allowed to dry. They are then subjected to a second operation, which consists in spreading them out on a metalic plate heated to 212 degrees Fahrenheit. They are finally assorted according to size, and tied up in bundles. These are sold at the rate of three or four for a cent. The establishment in Paris for manufacturing them employs thirty workmen, and effects sales to the amount of $40,000 annually.

JAMES B. EVERHART, ESQ., one of the best citizens of West Chester, has agreed to allow his name to be used as a candidate for the late Senator Evans' seat in the Senate.

The Northern Central Railway.

The annual meeting of the stockholders of the Northern Central Railway was held at Baltimore on Thursday of last week.

The annual report of the Directors was read by J. D. Cameron, Esq., President. The total earnings for the year were $4,266,898.85, and the expenses were $2,989,737.85, leaving as net revenue $1,277,164.00. This is an increase of $178,273.27 over the previous year. The passengers carried numbered 1,091,356, an increase of 3,461 over the previous year. During the year, 1,300 tons of steel rails were purchased, and a portion has been laid on the single track between York and Harrisburg.

Seven hundred and eight thousand and sixty five dollars were spent on the maintenance of way. The track was maintained in excellent condition, and it was the pleasure of the President to report that another year had passed without any accident having occurred to a passenger.

On the organization of the newly elected Board of Directors, J. D. Cameron, Esq., who has managed the affairs of the Company with such consummate skill and ability for several years past, and through whose untiring efforts it has been raised to its present prosperous condition, was unanimously re-elected President. There is no better financier in the country than Mr. Cameron, and the present condition of the Northern Central, contrasted with what it was when he was elevated to its Presidency, shows that he knows how to manage a railway.

KINDNESS TO KINDRED.

Want of the necessary means to supply the necessities which usually press upon people in the more moderate walks of life, may be an excuse for neglecting a disease which, like consumption, has often in times past been esteemed as incurable. But the common ties of nature, which ought to bind man to his own, overleap all these barriers in the estimation of right-thinking people: and when we see a medicine like Dr. Keyser's Lung Cure curing hundreds of people all around us, we feel it not only a pleasure, but a duty to point out to our readers such a valuable acquisition to medical knowledge. In the earlier stages of lung disease Dr. Keyser's Lung Cure is a specific. The cough and chill, the sputa streaked with blood, all give place to that healthy equilibrium of the circulation which is induced by that all-powerful remedy; and every bit of peccant and disorganizing material is expelled from the blood, and removed from the system by the natural ducts and excretory organs of the body. The tens of thousands of lungs clogged with mucus and seething with corruption can be made to perform the office of respiration by a timely use of Dr Keyser's Lung Cure. AGGRAVATED INDIGESTION.

Persons who are predisposed to dyspepsia, find their sufferings from this cause greatly aggravated by damp weather, easterly winds, and sudden changes from a mild to a chilling atmosphere. In the spring, therefore, the pangs of indigestion are seriously augmented by the atmospheric variations peculiar to the season, and it is incumbent upon all who desire to pass through the ordeal of its cold mists and insalubrious gales with easy stomachs, and untormented by the indescribable torments which accompany dyspepsia, to tone and strengthen the digestive organs with a healthful and effective vegetable invigorant; and no one at all familiar with the medical record of the age can question for one moment that Hostetter's Stomach Bitters is the Tonic best adapted to this purpose.

The credentials of the Great Restorative are unequalled in number and character by those of any other advertised medicine in the world. If ever there was a preparation to rank as a National Remedy, this wonderful specific has a fair claim to the title. For a period of twenty years is has literally been the Champion Tonic and Alterative on this side of the Atlantic. In popularity it has never been approached by any of its would-be competitors, and its annual sales are so far in advance of those of any other medicine of its class, that comparisons would be ridiculous. One of two conclusions is inevitable. Either the American people are deficient in common sense, and incapable of rational discrimination, or Hostetter's Bitters is the best preventive remedy for indigestion, fever and ague, bilious remittent fever, constipation, rheumatism, nervous complaints, and all maladies of an epidemic or an endemic type. The reader will judge for himself which of the two conclusions is most consistent with fact and reason.

—The Chicago *Tribune*, referring to the recent flurry in Union Pacific, says: "The decline since February 1st has been due, in a great measure to the injury which the snow blockade has done to the financial prospects of the company. Besides the interruption to the passenger travel on the road, an immense amount of freight is now delayed on the road, and a greater amount has been diverted to the old route, via the isthmus. During January, five steamers left New York with over 12,000 tons of freight for San Francisco, the most of which would have gone by rail but for the blockade, and, during February, it is probable that fully as great an amount of traffic was thus diverted. It has, however, been acknowledged everywhere that the winter has been one of unusual severity, and that no such copious snow-fall can reasonably be expected again for many years. In this view it is not probable that the injury to the prospects of the road will be permanent. The present condition of the road, together with the manipulations of the money markets, may temporarily depress the stock even lower than at present, but eventually better management and milder winters will more than re-establish the former value of the stock."

—The New York *Produce Exchange Circular* has the following:

NEW YORK, February 26, 1872.

Gold dull at 110⅜@110⅜. Loans were made from 3 to 7 for carrying. Clearances $44,000,000. Governments quiet and steady. The stock market was generally strong throughout the day with an advance in prices at the close. The advance ranged from ⅛ to 1⅜ per cent., and the great feature was in Northwestern common, which rose from 74⅜ to 76⅜. Pacific Mail, Western Union and Ohio's were next in point of interest. Money active early in the afternoon at 7. Gold closed easy at 5@6. The clique probably released some of the money withdrawn last week. Southern State securities on last call were heavy in New South Carolinas and steady in other bonds.

ASHES—Firm; Common Soda Ash, 5 cts, refined do, 5⅜; Nitrate Soda, 5⅜; Pots, 10; Pearls, 11 cts.

APPLES—Are coming in more freely, but, with a steady demand, prices are fully maintained; $3@4 for common to medium, and $4,50@5,00 for prime to choice. Good, sound fruit is regarded as good stock.

BUTTER—We are reported sales of prime to choice roll at 26@28. Common and medium butter is in good supply and dull.

BROOM CORN—Is quiet and unchanged; small sales within the range of 6@9 cts.

BUCKWHEAT FLOUR—4 cts per lb.

BEANS—Steady at $2,00@2,50 per bushel, as to quality.

CHEESE—Is steady, with a fair jobbing trade and prices are maintained; 17@18 for Goshen; 15@16 for Factory, and 14@14⅜ for Dairy.

CANNED GOODS—Peaches, $6@7 per case; Tomatoes, $4.25@4.50; Corn, $5.50@6.

CRANBERRIES—Sales at $12@17 per bbl, as to quality—the outside figure for Sackett's.

COUNTRY LARD—Sales at 8@8⅜ cts.

CONCENTRATED LYE—$6 per case.

CANDLES—Mould, 12; Star, 20.

CARBON OIL—Quoted at 20@20⅜ by the car load and 2@3 cts additional for small lots.

DRIED FRUIT—Peaches, 10@10⅜ for halves 8@8⅜ for mixed; 7@7⅜ for quarters and 15@20 for peeled. Apples, 7@7⅜ for common to fair and 8@8⅜ for good to prime. Blackberries, 13@15. Pitted Cherries, 28@30; unpitted, 8@10.

EGGS—The receipts are increasing and lower prices are anticipated within the next few days. Fresh may be fairly quoted at 30—dealers generally are anxious to realize.

FLOUR—The market is quiet and unchanged—the demand, as usual, is restricted entirely to supplying the immediate wants of the local trade. We continue to quote, in a jobbing way: Fair to medium spring wheat, $7,25@7,50; choice, $7,75@7,85; fair to good red winter wheat, $7,50@7,75; and $7,90@8 for choice. Rye Flour, $5,50. The receipts, although not large, are sufficient to keep up stocks, and this seems to be all that is desired.

GRAIN—There is a steady demand for Wheat and with continued light receipts prices are fully sustained, $1,50@1,62 for red and 3@5 cts more for white, according to quality. Oats continue dull and the market is considerably overstocked, but prices are without quotable change, 48@50, on track, for mixed to prime white—usual advance over these quotations for small lots in store. Corn is reported quiet and unchanged; shelled, 58 on track and 60 in elevator; ear, 60 in bulk and 61@62 bagged. Rye is quiet and unchanged, 95@$1 buying and selling. Barley is still quotable at 92@90 for spring and 80@85 for fall, according to quality.

GROCERIES—Coffee—Altogether the latest Rio news is favorable to holders, and the steamer North American's cargo of 8,324 bags laid down in New York last week, costs 1@1⅜c above the present nominal valuations. The reported receipts at Rio amount to 4,200 bags, daily, which is an increase on former news. The Congressional legislation over, and a healthy resumption of business resulting, coffee will probably advance on account of the high cost of the bean at Rio. Sugar—The Sugar market is dull and shows weakness, but such a state of things always exists at this season of the year. The stock held on the seaboard is quite small—amounting to about one-half the quantity held at same time in 1870 and 1871, but the foreign crops being large, heavy shipments are anticipated and sugars will in all probability rule lower in March. Refineds lower and refiners complaining of a loss in their manufacture. Molasses—Booming and choice New Orleans held tight by those who have been lucky in making purchases. We look for higher prices than obtained last year. Syrups excited and higher. Favorite brands scarce and hard to buy. An advance of 10c per gallon in the next thirty days would not surprise the trade. Rice—Carolina higher, but the prospect of 1c per lb. coming off foreign as contemplated by Congress will have a tendency to depress the market and lower prices a little—otherwise no dimination in value will occur.

SUGARS—Refined—Standard Hards, 13⅜; A, 12⅜; B, 12⅜; Ex. C, 12⅜; C Yellow, 12⅜; Porto Rico Sugars—Choice, 11; Prime, 10⅜. Good, 10. Demarara, 11⅜@12. New Orleans—fair, 10; good, 10⅜c; prime, 11; choice, 11⅜.

COFFEE—Fancy Rio, 26; Prime, 25; Good, 24. Fair, 23@23⅜; Java, 28@30. Laguayra, 25@26. Mocha, 45. Roasted Coffee, pure, 28. Lower grades, 25@26.

SYRUPS—Havemyer & Elder's, 65. White Honey, 65. Lovering's, 60. Durant's, 65. Sugar Drips, 75; Brune's, 65; other grades, 48@60. New Orleans Molasses, prime to choice new crop, 65@70.

RICE—Choice Carolina, 9⅜; Good, 8⅜; Fair, 8⅜. Rangoon, 8. Patna, 8⅜.

SPICES—Pepper, 24. Allspice, 18. Cassia, 50. Cloves, 25. Nutmegs, $1,40.

HAY—Is in good supply and dull but not quotably lower; baled, on wharf and track, $20@24 per ton, according to quality.

HONEY—Sales at 25@30 cts.

HOMINY—Sales at $4,50 per bbl to the trade and and $5 in a jobbing way.

LARD OIL—No. 1 Extra is quoted at 85@87 and No. 2 at 63@65.

MILL FEED—Is quoted in a jobbing way at $1,20@1,25 per cwt for Bran, $1,35@1,40 for coarse corn meal, $1,50@1,55 for coarse and $1,70@1,75 for fine middlings; $1,60@1.65 for chopped corn and oats and $1,90@2,00 for oil meal.

ONIONS—There is an improved demand but prices remain unchanged, $2,50@3 per bbl, for fair to prime.

POULTRY—Stock very much reduced, and the season for dressed is about over.

POTATOES—Sales, in a jobbing way, from store, at 75@80 per bushel.

PROVISIONS—Bacon Shoulders, 7 cts; sugar cured do, 8⅜; Ribbed sides, 8; Short rib, 8⅜; Clear, 9; Sugar Cured Hams, 12⅜. Mess Pork, $14@14⅜. Ham Sausage, 10⅜. Dried 16⅜. Lard: in tierces, 9⅜ for steamed, and 10 for kettle.

RAGS—Sales, 4@4⅜ cts per lb.

SALT—Is quoted at $1,85 per bbl, by the car load, and $2 in a jobbing way.

SHAKER CORN—13@14 cts per lb.

SEEDS—Clover Seed is in good supply and dull, but prices are nominally unchanged: $6,50 in a jobbing way. Timothy Seed is in limited supply and steady with small sales at $3,75@4. Flaxseed unchanged at $1,75@1,80, and the receipts and offerings continue very light.

CATTLE.

The supply to-day was somewhat in excess of last Monday, 41 cars, and of these, all but one or two cars were from the west; with increased offerings and an apparent falling off in the demand, the market was generally pronounced by drovers a hard one—some of them thought it the worst of the season—trade opened up slow and dragged all the way through, closing with a number of odds and ends left over unsold. Prices, as a general thing, ruled about the same as last week, but it was claimed that a large proportion of the cattle, especially those bought in Chicago, cost more than the week preceding, and, if this was the case, and we have no reason to doubt it, drovers, even if they realized the same prices, did not do as well as on last Monday. The fact that the lenten season is at hand, is operating badly on the butchers sales, as it has cut down very materially the consumption of beef, and the consequence is the butchers do not require as many cattle as usual, and this accounts mainly for the hard markets to-day and last Monday, and, furthermore, no material improvement can be expected until after lent is over.

Prime butcher cattle sold to-day at from 7 to 7⅜, with some few extra at 7⅜; medium to good, 6⅜@6⅜, and common to fair at 5⅜@6. There were several bunches of stock cattle on sale, and they were about all sold, there having been a fair attendance of stock buyers in attendance, and so far as we could learn, at prices ranging from 4⅜ to 4⅜, according to quality. There is a wide range in prices for fresh cows, as there is in quality, and we quote at $25@75 for common to extra.

Jacob Emmell reports 13 head of prime Butler Co. steers, averaging 1,350 lbs; held at 7 cts—6⅜ bid.

Holmes, Lafferty & Co., a promiscuous bunch of 14 head—6 left over unsold.

Jacob Lobman reports 1 car of good 900 lb stockers at 4⅜@5 cts; 1 car of fat cattle at 5⅜@6⅜.

Peter Hartman, 23 head of common to prime butcher cattle at 5⅜@6⅜.

Jacob Shamberg sold one load of butcher cattle at 6@6⅜—one car left over.

M Varner reports 2 loads of mixed butcher stock, from Chicago, at 5⅜@7 cts.

M Kraus reports 38 head of common to good butcher cattle at 5⅜@6⅜.

Rothchilds & Zeigler, two loads from Ohio and two from Chicago at 5⅜@6⅜.

Sadler, Haven & Co. sold 34 head of Chicago stock, for Peter Klemen, at 5⅜@6⅜; 18 head from Belmont Co., Ohio, for Coffman, at 5⅜@6⅜ cts.

Orr & Williams sold 19 head of commonish stock at 4⅜@5⅜.

Keefer & Beyer, two loads of fair to prime butcher cattle, from Chicago, at 5⅜@7⅜—8 left over.

James Hunter reports 24 head of Ohio stock at 5@6⅜; also, 21 stockers at 4,65.

S Traurman reports 37 head of common to prime butcher cattle at 5⅜@7 cts.

Sam Lowensteine, 18 head of mixed butcher stock at 4⅜@6⅜.

Greenwald & Kahn report 47 head of good 800 lb stockers at 4,62; 56 good to prime butcher cattle at 5⅜@7 cts.

Jacob Needy reports having sold 2 loads of mixed stock, on commission, at 4⅜@7⅜.

Carr & McAllister report 20 head of Ohio stock, on commission, at 5@6⅜.

SHEEP AND LAMBS.

The supply of sheep was light footing about 500 head, but with scarcely an average demand, trade was slow though they were all sold and that, too, as a general thing at full prices, say 8@8⅜ for prime to extra; 7@7⅜ for medium to good and 6@6⅜ for common to fair. Butchers generally do not want many sheep at the prices; and hence a comparatively small number is sufficient to supply the demand; but for the pelts the butcher could scarcely get his money back as mutton is worth but little more now than it was three months ago, notwithstanding, sheep are costing about 2 cts per lb more. Following is a pretty full report of the sales:

Jacob Keefer sold 54 head of coarse wool sheep averaging 132 lbs at 8 cts.

J W Unger sold 35 head of common Ohio stock averaging 80 lbs at at 7⅜.

M Humes reports 61 head of fair to prime Western Penna. stock at 6@8 cts.

E Ackley sold 35 head of common to extra at 6@8⅜ cts.

Neeley & Fairley report 60 head from Armstrong Co. sold at from $4 to $7 per head.

Thomas North sold 40 from Westmoreland Co. coarse wool at $4.50@5.50 per head.

J S McMillan reports 65 head of good to prime fine wool Washington Co. sheep at 7@8 cents.

Fred Hector sold 70 head of fine wool Ohio sheep averaging 100 to 109 lbs to Peter Tesh at 8⅜; 30 to J F Bellsteine averaging 100 lbs at 8⅜; 16 to Jeremy averaging about 90 lbs at 7⅜.

HOGS.

The supply although fully equal to the demand, was not large, and prices were about the same as last Monday, ranging from 5 to 5⅜ gross, in a retail way. The regular dealers, Fred Hector, Emerick, Greenwald & Co., and J. Rothchilds & Son, are doing pretty much all the business at these yards, and the transient lots are picked up by these parties in order to get them out of the way. J. W. Unger sold a small bunch of common hogs at 4⅜.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, February 26, 1872.

We have to report a continued dull market but hopes of an early improvement are entertained. Crude $3.50 per bbl at Parker or $4.00 delivered here. Refined—February, 21⅜@21⅜; buyer last half of March, 22⅜; buyer last half of April, 23. Oil Barrels quiet and unchanged, $1,65 for city make, immediate delivery.

In the circular of Peter Wright & Sons, reference is made to the South Improvement Company as follows: "It is now intimated that the contemplated advance in railroad freights on petroleum, referred to in our last is only part of a thoroughly concerted effort to ally the chief petroleum refining interest of Cleveland, Pittsburgh, Philadelphia and New York, with those of the railroads connected with points indicated or traversing the oil producing districts. The object of the above combination of interests is understood to be two-fold—first to do away at least in a great measure with the excessive and undue competition as now exsiting between the refining interests, by reason of their being a far greater refining capacity, than is called for or justified by the existing petroleum consuming requirements of the world. Secondly—to avoid the heretofore undue competition between the various railroad companies transporting oil to the seaboard, by fixing a uniform rate of freight, which it is thought can be adhered to by some such arrangements as guaranteeing to each road certain per centages of the profits of the aggregate amount of oil transported, whether the particular line carries it or not. It is also asserted that a prominent feature of the combination will be to limit the production of refined petroleum to such amounts as may serve to in a measure do away with the serious perodical depressions in the article. It is also to be expected, that, desiring to curtail the production of refined petroleum in this country, the railroads will not offer any additional facilities for exportation of the crude article. The combination referred to is understood to embrace a majority of the most prominent manufacturers of petroleum in the United States, as well as a number of the shrewdest of our railroad officials.

River Intelligence.

The weather yesterday was clear and pleasant, and all that could be desired for out-door business. The river continues to recede slowly, with 4 feet 2 inches in the channel, and the Ohio is clear of ice at this point.

The Elector, from Brownsville, and Elizabeth, from Elizabeth, arrived yesterday morning, and departed again in the afternoon. These are the first arrivals from up the Monongahela for several weeks, and people residing in this valley and dependent on river communication with the city, are no doubt greatly elated, as they have good cause to be.

The West Virginia, from McKeesport, where she was frozen up while on her way down from Morgantown, several weeks ago, was expected in last night. While frozen up, she was nicely re-painted and otherwise improved, and is, therefore, in tip-top condition for business. She will depart again to-day, leaving at 3 p. m., Capt. Peter Donaison in command.

The towboats Sam Clarke and Boaz were due last evening.

The Granite State departed for Portsmouth about 9 o'clock yesterday, and, as she transferred some fifty tons of her freight to the Argosy, it is thought she will get through with little or no difficulty.

The Geneva, with Capt. M. A. Cox in command, was due here from Brownsville last night.

The Elizabeth having resumed her regular trips, many of our merchants will, no doubt, be made glad by daily visits from her clerk, Mr. Robt. Boyd, who brings down a large number of orders for goods almost every day.

The Argosy departed for Wheeling yesterday afternoon.

The Stella, which boat it will be remembered, was cut down and sunk by the ice near Sunfish, some weeks ago, arrived yesterday in tow of the Traveller and Parke Painter. We presume she will at once be put on the dock for repairs.

The Columbia was insured in Pittsburgh companies, as follows. Peoples, $2,000; Allegheny, $2,000; Pittsburgh, $2,000. Following is the insurance in Pittsburgh companies on the John Kyle: Eureka, $5,000; Boatmen's, $5,000; Pittsburgh, $5,000; Allegheny, $2,500; Peoples, $2,500. Total insurance here on both boats $26,000.

Capt. Sanford Coulson expects to have his new mountain steamer completed within 30 days.

Commodore W. J. Kountz was expected to arrive at St. Louis on Saturday from Cairo.

The Mary Davage was to have left St. Louis for New Orleans on Saturday.

The following boats have the bulk of their cargoes engaged and on board and will depart as soon as there is sufficient water: Messenger, Capt. Geo. W. Reed for Nashville; Lorena Capt. Sam Shuman and the Wild Duck, Capt. C. F. Adams for St. Louis; and the Arlington, Capt. Dan Moore for Cincinnati. The latter boat is receipting freights through to all points south, including New Orleans.

—Yesterday morning, after the manheads had been taken out of the John H. Groesbeck's boilers, Clark's registering steam gauge, manufactured by White & Payne, of Boston, and which had been placed in the cabin by order of the Supervising Inspectors at a cost of $70.85, indicated a pressure of seventy-two and a half pounds of steam. This after the boat had made but one trip to New Orleans. Comment is unnecessary.—*Cin. Gazette.*

—The Cincinnati *Commercial* says: The levee was thronged with over twenty steamers yesterday, discharging and receiving cargos, presenting a lively scene, the wharf being covered with sugar, molasses, cotton, pork, bacon, whisky, and other merchandise. A fleet of boats depart for below to-day including the Bermuda for Evansville, James R. Rankin and Emma Floyd for Nashville, Abeona for Tennessee river, Minneola for Memphie, Armadillo for Arkansas river, and Alice Dean for New Orleans.

—A private letter from New Orleans dated the 18th says: The May Lowry met a severe storm in Soda Lake, between Shreveport and Jefferson, which blew off three-quarters of her hurricane roof, and carried Capt. Boley 60 feet out in the lake, in which he did some remarkable swimming practice.

—A proposition was started a few months ago to hold a convention in St. Louis on the 22nd inst., composed of delegates fram all the leading cities in the Mississippi Valley. The New Orleans Board of Trade appointed a set of delegates, but beyond that we have heard nothing concerning the matter.

—Capt. Wrenshall, of the Bridge Company, measured the ice in the Mississippi, at Davenport, at three places, finding it 21⅜, 28⅜, and 31 inches. There was one place, about 250 feet from the Iowa shore, where the ice was 3 feet 9 inches through.

—George H. Porter, of Charleston, and Mr. George Welch, of Peytona, have purchased an interest in the Kanawha packet Bettie Gilbert, and placed her in the Loup Creek trade.

—The Katie P. Kountz, Captain Dave Haney took into New Orleans 2,553 sacks corn, &c

—The Exchange left Cincinnati for Pittsburgh on Friday.

Our New Type.

We have received our new type from the factory, and are settling up our advertisements. Any of our advertisers who contemplate changing their cards, will oblige us by handing in the new copy. We will print an extra edition of the GAZETTE in the new dress, and we note the fact in order that our friends may take advantage of the fact and have their advertisements inserted in time.

Alleged Larceny.—Last evening James Wagner was arrested and locked up in the Central Station House on a charge of stealing a watch in a saloon at the corner of Penn avenue and Twelfth street. The stolen watch is the property of Milby Heisel. The case will be heard this morning.

The Twelfth Ward Cutting Affray.—Intelligence was received at the Central Station House last night at twelve o'clock that Holtzman, who was stabbed by Corey, was dead. The accused has been committed to jail to await the result of the injuries inflicted. He has been positively identified as the man who did the cutting.

Sunday School Notice.—Mr. J. Bennet Tyler, the recently appointed Secretary of the Sunday-school work in the Presbyterian Church, desires to meet the Pastors and Superintendents of that denomination in Allegheny county, at the First Presbyterian Church, Pittsburgh, on Thursday (not Wednesday), at 10½ A. M. Object—Explanations of plans and acquaintance.

The Philadelphia ***Press*** **says:**

"The Pittsburgh *Manufacturer*, a weekly journal, devoted to trade and business, copies in a late issue, no less than eleven scientific notes from the *Press* without deigning to give us credit. What is the difference between such conduct and dishonesty except that it is a species of knavery that cannot be punished by law?"

It is only a short time since the *Manufacturer* made a similar complaint against some of its co-temporaries—"People who live in glass houses," etc.

Dividend.

All our banking institutions appear to be doing a thriving business—we know of no exception. It will be observed that on Saturday the *Central Bank*, of which Mr. J. W. Davitt is cashier, declared a dividend of 5 per cent. out of the profits of the last six months. Such dividends are the fruit of careful and skillful management in which respect the Central is not surpassed.

East Liberty News Agency.

W. G. Anderson, the East Liberty agent for the GAZETTE and other papers, near the railroad station, is a good fellow, attends faithfully to all his news customers and keeps cigars, tobacco and other accessories to suit all tastes. Anderson is a thriving man and deserves success, give him a call, ye of the beautiful suburb. If you want the GAZETTE left at your door, give your name and locality to Anderson and *presto* the thing is done.

Small-Pox on the Southside.

The small-pox on the Southside is on the increase instead of decreasing. There are no less than nine patients in one house on Chestnut street, between First and Second. The only wonder is that the loathsome disease is not to be found in every house, since the authorities allow slaughter houses and other nuisances to be erected in the most thickly populated streets. We understand several citizens are raising a fund to test the matter, and see if pestilence can be brought to a man's door.

The Turntable to Remain.

The Pleasant Valley Railway Company achieved a victory yesterday in the District Court, in the argument on the motion to dissolve the injunction restraining the city authorities from removing the turntable on Smithfield street. City Solicitor Slagle appeared for the city, and Major A. M. Brown for the Company. The argument was prolonged for about three hours, and at the conclusion Judge Hampton declined to grant the motion and directed the continuance of the injunction until further orders from the Court.

It is likely that a compromise of the dispute will be effected between the city and the company.

Buggy Wrecked.

Yesterday evening about five o'clock, a lady and gentleman were riding along Ohio street, Eighth ward Allegheny, in a buggy, when an intoxicated teamster coming from an opposite direction, managed to drive his heavy wagon so as to collide with the lighter vehicle, which was upset and considerably damaged. The occupants were thrown with violence to the ground—and the lady when picked up was insensible. She was carried into a house near by, and after receiving medical attention, returned to consciousness. She was severely gashed about the head, from coming in contact with the ground. The accident occurred in front of the Willow Grove Brewery.

No Extortion—No Deception.

Reader, do you want for your own use or for bridal presents or otherwise, such articles as Tea sets, Urns, Castors, Butter Dishes, Pickle and Celery Castors, Knives, Forks and Spoons, or any elegant and very choice jewelry, or fine Watches or Clocks, and if in the purchase of them you would make sure that you are not deceived, but that the goods selected will prove to be just what they are represented, the place to go is Messrs. J. R. Reed & Co's, whose integrity is above suspicion—they would rather lose a customer than deceive him. All this is very important to those who purchase jewelry and silver or gold goods. We repeat that J. R. Reed & Co's. is a perfectly safe place to deal. No extortion—no deception at Reed's.

Artificial Stone.

We bespeak the attention of our readers generally, to the advertisement of Messrs. Mills & Co., who have made extensive arrangements for manufacturing artificial stone, having already received large orders to be executed this spring. The work done by them last season in various parts of the city, is wholly unaffected by the unusually severe winter. Several samples of sidewalk pavement that we have inspected are looking as perfect, and give promise of being as durable as solid natural stone. It is equally adapted to many other kinds of work for which stone is ordinarily used, such as fire-proof floors, house fronts, belt courses, sills, corners, lintels, cemetery work, and such like. We foresee that this material, by reason of its great comparative economy and durability, is destined to be extensively introduced in and about the city, and are glad that a firm so skillful and responsible as Mills & Co. are to be the pioneers in demonstrating its practical utility.

Allegheny Republican Club.

Our patriotic Republican friends in Allegheny, design organizing a political club in that city, for the purpose of having a headquarters "where Republicans of the city can meet and exchange opinions and consult concerning the best interests of the party."

We trust it will not be considered presumptuous in us, if we suggest the propriety of calling it "The Stanton Club of Allegheny." There would be an evident propriety in this, as we have the "Lincoln Club of Pittsburgh," and so long as a patriot heart shall beat, the names of the two great and good men will be sounded together. Besides, Secretary Stanton was a resident here for a long period, and the new club will doubtless be composed of many to whom he was personally known; it will contain none, who do not hold his name in grateful memory. We wish the new club the greatest harmony and success, and we are well assured that this will be its future, as they have the right material over the river for organizing success. On Thursday, February 29th, at City Hall, the preliminary meeting will be held.

Surprise Party.

On last Friday evening, about 9 o'clock, a large number of citizens assembled at the residence of W. B. Ross, Esq., as a surprise party. It proved an entire success, as Mr. Ross had no knowledge of their coming or the object of their visit. They proceeded to organize by electing R. H. Knox President, William F. Trimble Secretary, when Mr. Geo. R. Cochrane, Esq., on behalf of the donors, presented Mr. Ross with a magnificent gold headed ebony cane, with the following inscription handsomely engraved: "Presented to Wm. B. Ross, Esq., by the friends of temperance and good order, 1872." Mr. Cochrane made a brief and very appropriate speech, complimenting him highly on account of his efforts to suppress the illegal liquor traffic by enforcing the laws against those violating them in selling liquor on the Sabbath days, and to minors, assuring him that the sympathy of the moral and intelligent portion of the community is with him, and would sustain him in the work, and that much good had been already accomplished through his instrumentality. Mr. Knox also made a few remarks, assuring Mr. Ross that if necessity required him, which he hoped would never be the case, to use the cane as a weapon in self-defense, and it would break in so doing, the donors would kindly furnish him with another.

Mr. Ross responded in a few brief remarks, returning his thanks to the donors for their valuable present which he so highly prized, not only on account of its intrinsic value but much more on account of the assurance given that the moral and intelligent portion of the community was with him in the enforcement of the laws, and expressed his belief that the laws were only to be made a terror to evil doers, by having them rigidly enforced against those engaged in corrupting the morals of the youth, and desecrating the Sabbath day in defiance of the laws of both God and man.

The whole affair passed off pleasantly and satisfactorily to all that were present.

WHEREAS, It is fitting that the citizens of Pittsburgh should themselves hold in trust and proudly cherish a spot thus consecrated by early local traditions; therefore be it

THE CONTROLLER'S REPORT.

Mr. HOUSE presented a communication from Controller McGowan asking for an extension of time for the preparation of his report to Councils.

Mr. HOUSE moved the request be granted. Carried.

Also, petitions from various persons for reduction of business tax. Referred.

PROPOSED ISSUE OF NEW BONDS.

Mr. LITTELL, a supplement to an ordinance authorizing the issue of bonds for the redemption of over due city bonds. The ordinance pledges the city to the payment of the State tax on the proposed new bonds. The bonds sought to be issued will amount to $128,000, upon which the State tax would be three mills on the dollar.

Mr. BURGWIN thought such an ordinance would be illegal.

Mr. LITTELL said it had been submitted to the City Solicitor, who thought there would be no difficulty about the matter; if the purchasers of the bonds were not exempted from the State tax, the bonds would have to be sold below par.

Mr. McCUNE said the proposition on the part of the Finance Committee was that the city should assume the payment of the tax.

Mr. BURGWIN said the Legislature should be applied to for the passage of an act authorizing the city to do what the ordinance proposed, and the gentleman offered a resolution to that effect.

The question came up on the passage of the ordinance, when it was passed finally.

Mr. BURGWIN'S resolution was also passed.

WATER DEPARTMENT.

Mr. LLOYD, from the Water Committee, presented the report of that committee for the month of January, as follows: The expenditures amounted to $16,019 34, viz: current expenses, $6,790 80; permanent extension, $9,228 56.

The report was received.

ALLEGHENY WHARF COMMITTEE.

Mr. ASDALE presented the report of the Allegheny Wharf Committee, that the committee had organized by the election of Mr. Asdale as chairman.

Mr. PEARSON objected to receiving the committee's report, as it had not been organized in accordance with the rules of Councils. He offered a resolution refusing to recognize the committee, on the ground that it was not regularly organized.

The resolution was laid on the table, when the report of the committee was received.

THE EQUALIZATION SCHEME.

Mr. MONTOOTH, Chairman of the Ordinance Committee, reported that committee as organized. The committee also reported a resolution approving a draft of an act of Assembly empowering the City Councils to equalize the taxation within the city, and requesting the Legislature to pass the act.

Mr. BURGWIN presented a minority report from the Ordinance Committee, signed by W. B. Negley and L. H. Jones, opposing the proposed legislation.

Mr. PEARSON moved to lay the minority report on the table.

Mr. RIDDELL called the ayes and nays, and the call being sustained, resulted as follows:

Ayes—Messrs. Ahl, Asdale, Chalmers, Hoeb, House, Hunter, Jeremy, Lang, Liddell, Miller, McCarthy, McCune, McDonald, Morrow, Montooth, Neely, O'Neill, Pearson, Rafferty, Schmidt, Wilson, Zern—22.

Nays—Messrs. Aiken, Burgwin, Chislett, Chambers, Donnelly, E. P. Jones, J. H. Jones, Littell, Lloyd, Murray, Riddell, Scully, Seely, Smith, Thompson, Wainwright, Waring and President Gross—18.

So the motion to lay on the table prevailed.

The majority report was accepted.

THE BILL AMENDED.

Mr. McCARTHY offered an amendment to the proposed act of Assembly, to the effect that a Board of Revision, one from each ward, to equalize the taxes be authorized.

The amendment was carried.

Mr. ZERN offered an amendment to the bill, that the assessors shall be elected in the same manner as heretofore provided by law. Carried.

Mr. McCARTHY moved the adoption of the resolution, asking the passage of the bill by the Legislature, as amended.

TROUBLE AHEAD.

Mr. J. H. JONES offered a resolution referring the bill to a special committee of five members of Select Council and six members of Common Council, to examine the same, and report thereon to Councils.

Mr. MORROW moved that the resolution be laid on the table.

The ayes and nays were called, with this result:

Ayes—Ahl, Asdale, Chalmers, Hoeb, House, Hunter, Jeremy, Lang, Liddell, Miller, McCarthy, McCune, McDonald, Morrow, Montooth, Neely, O'Neill, Pearson, Rafferty, Schmidt, Wilson, Zern—22.

Nays—Aiken, Burgwin, Chislett, Chambers, Donnelly, Jones E. P., Jones J. H., Littell, Lloyd, Murray, Riddell, Scully, Seely, Smith, Thompson, Wainwright, Waring, Gross A. H., Pres't—18.

So the resolution was laid on the table.

POINTS OF ORDER—GAG LAW.

Mr. AIKEN—I now propose a substitute for the proposed act in regard to the equalization of taxation.

Mr. McCARTHY—I rise to a point of order. A substitute to a matter already passed upon is not in order.

Mr. RIDDELL—I rise to a point of order—are we to have gag law here? The gentleman knows the matter has not been passed upon. Is he afraid of discussion? What does he mean by his efforts to choke off those who differ with him?

Mr. McCARTHY rose to a point of order, and began a reply to the gentleman from the Seventeenth ward (Mr. Riddell).

The PRESIDENT—The gentleman has not stated his point of order.

Mr. McCARTHY—The gentleman was permitted to pitch into me, and I am only replying in very moderate language. (Laughter.)

The PRESIDENT—I decide that the gentleman from the Eleventh ward is not in order.

COMMOTION IN THE LOBBY.

This decision was hailed by the crowd in the lobby with hisses and cries of "go in McCarthy."

The PRESIDENT—(Rapping vigorously with his gavel)—Will some one make a motion to adjourn? If there is another such disgraceful demonstration here I shall exercise my prerogative and declare this body adjourned.

Order having been restored, Mr. Aiken offered his substitute, which is substantially as follows: That the Legislature be requested to re-enact, revise or alter our assessment laws, so that all real and personal property in the *entire* State will be assessed and valued at its actual cash value.

Mr. BURGWIN made a lengthy argument in favor of the substitute, and in opposition to the original bill.

Mr. PEARSON said the law proposed by the substitute had been in force all over the State since 1841. It would make Councils appear ridiculous to ask the re-enactment of a law already in force.

Mr. RAFFERTY moved to lay the substitute on the table. A call of the ayes and nays resulted as follows:

Ayes—Ahl, Asdale, Chalmers, House, Hunter, Jeremy, Lang, Liddell, Miller, McCarthy, McCune, McDonald, Morrow, Montooth, Neely, O'Neill, Pearson, Rafferty, Schmidt, Smith, Wilson, Zern—22.

Nays—Aiken, Burgwin, Chislett, Donnelly, Hoeb, E. P. Jones, J. H. Jones, Littell, Lloyd, Murray, Riddell, Scully, Seely, Thompson, Wainwright, Waring, Gross, President—18.

So the substitute was tabled.

Mr. McCUNE moved the adoption of the original draft with the amendments, and called for the previous question.

After some discussion, Mr. Burgwin arose to make a motion.

Mr. McCUNE said the gentleman was out of order, as he had called the previous question, and the call had been sustained.

The PRESIDENT—I decide that the call for the previous question was not sustained, and that the gentleman from the Twenty-third ward (Mr. Burgwin) is entitled to the floor.

Mr. MORROW desired to ask a question.

Mr. BURGWIN—I will not yield the floor. I have been choked off often enough, and I will now do a little of it myself.

Mr. BURGWIN then offered his resolution, as an amendment, which was to the effect that the act shall not go into effect until it shall have been submitted to a vote of the people and again returned to Councils for their action.

Mr. RIDDELL was here called to the chair by the President.

Mr. LITTELL argued in opposition to the resolution and to the original bill.

MORE POINTS OF ORDER.

Mr. McCARTHY rose to a point of order. He said the gentleman was not speaking to the resolution.

The Chair decided that the gentleman was in order.

Mr. PEARSON rose to a point of order. The gentleman had been speaking more than ten minutes.

Mr. LITTELL asked an extension of his time, which was granted, and he proceeded with his speech.

Mr. McCARTHY—Mr. President, I again rise to a point of order. The gentleman is abusing the courtesy extended to him, and I firmly believe that he is only speaking to consume time.

PERSONALITIES.

Mr. LITTELL—I as firmly believe that the gentleman utters a falsehood.

The Chair hoped that the members would refrain from personalities.

The question on Mr. Burgwin's amendment was called, and the ayes and nays were called with the following result:

Ayes—Messrs. Ahl, Asdale, Burgwin, Chislett, Chambers, House, Hunter, E. P. Jones, J. H. Jones, Liddell, Miller, McCarthy, McCune, McDonald, Morrow, Murray, Montooth, Neely, O'Neill, Pearson, Rafferty, Riddell, Scully, Schmidt, Smith, Wainwright, Wilson—27.

Nays—Messrs. Aiken, Chalmers, Hoeb, Jeremy, Lang, Littell, Lloyd, Seely, Gross.—9.

So the amendment was adopted.

Mr. BURGWIN called for the previous question, which was sustained, and upon which the call for the ayes and nays resulted as follows:

Ayes—Messrs. Ahl, Asdale, Chalmers, Hoeb, House, Hunter, Jeremy, Lang, Liddell, Lloyd, Miller, McCarthy, McCune, McDonald, Morrow, Montooth, Neely, O'Neill, Pearson, Rafferty, Schmidt, Smith, Wainwright, Wilson, Zern—25.

Nays—Messrs. Aiken, Burgwin, Chislett, E. P. Jones, J. H. Jones, Littell, Murray, Riddell, Scully, Seely, Thompson, Gross—13.

So the bill with its amendment was approved.

Adjourned.

Also, bills of $75 to S. Richardson and $22 to Bennett Lake for serving notices. Resolution ordering warrant for the same passed. Report of viewers on widening of Try street; approved. Report of viewers on damages caused by regrading Forty-fourth street; approved.

Mr. JOHNS moved that the vote on approving the report of viewers on Forty-fifth street be reconsidered. Carried.

The report was then referred back for further consideration.

Mr. ARTHURS presented a bill of viewers on street openings for $116. Received, and resolution ordering a warrant passed.

WHEN SHALL WE MEET.

Mr. DUFF, resolution authorizing our Representatives at Harrisburg to secure repeal of so much of the consolidation act as requires Councils to meet not later than two o'clock in the afternoon.

Mr. SNEATHEN moved to lay the resolution on the table. Lost.

Mr. DUFF moved the passage of the resolution.

Mr. CAMPBELL wanted to know the object of the paper.

Mr. DUFF said it was simply to leave the fixing of the time of meeting to Councils. Sometimes it was inconvenient for members to attend in the afternoon. If Councils had the power to fix the time themselves, then meetings might be held alternately in the evening and afternoon, or all the time in the evening, or altogether in the afternoon. It was simply to give Councils power to fix their hour of meeting.

Mr. COHEN thought there was no reason in the Legislature fixing the hour for Councils to meet; Councils ought to be the authority in that matter.

Mr. BARR thought two o'clock was a favorable time and if this resolution was carried then the meetings would be fixed for the evening, and in that case the members from the rural districts could not be in attendance.

Mr. McCANDLESS thought this matter had been sprung upon them and they should take time to consider it.

Mr. BARR—There is a snake in this matter. [Laughter.] The sole object is to have the Councils meet at seven o'clock in the evening.

Mr. COHEN—Perhaps the gentleman can see a snake in it, but I can't.

Mr. BAUM thought all the members from the rural districts had horses and vehicles and could drive in and out if the meetings were held at night.

Mr. ARENSBERG didn't believe in making any change. If the time was not permanently fixed there would be a discussion about the time of meeting at each meeting, and a great deal of time would be consumed.

A vote was finally taken when the resolution was voted down by a vote of 23 to 26—the chair deciding that it would require an affirmative vote of two-fifths of the members present to pass such a resolution.

Mr. BARR, a resolution instructing our representatives at Harrisburg to have the law changed so as to admit of the election of city officers elected by Councils, for a term of three years—to date from February 1st, 1872. Laid on table.

Adjourned.

POLICE NOTES.

Brief Mention of Criminalities.

Before Alderman Humbert A. Skubale, a Market street clothier, appeared and made information, charging a pedler, named Levi, with assault and battery and surety of the peace, alleging that the accused did knock him down and threaten to kill him. Levi was arrested and required to find bail for a hearing.

The same magistrate had before him one Patrick McAnuley, who is charged, on oath of C. Marks, with assault and battery. A fight between the parties, in Wm. Brown's bar-room in the Diamond, gave rise to the suit. The accused was held for a hearing.

Yesterday Alderman Strain took the information of Elenora Wisely, charging William England, Charles Bunn and James Bunn with malicious mischief and disorderly conduct, in that they did visit her residence, on Third avenue, at the unseasonable hour of four o'clock on Saturday morning, and knocked for admission, which being refused, they did maliciously tear away the iron railing at the door. The accused were arrested and each held in the sum of $500 for a hearing.

The Mayor yesterday morning sent John McCready and Louis Larkins, vagrants, to the Workhouse for thirty days.

Alderman Strain yesterday held Bridget McWilliams for a hearing on charges of disorderly conduct and surety of the peace, preferred by Eliza A. McAness, of Soho, who alleges that the accused threatened to take her life, and did conduct herself in a disorderly manner. The parties had just emerged from a law suit at 'Squire Strains, and the affair of yesterday resulted from ill-feelings engendered thereby.

Wm. A. Elliott, the bar tender at No. 945 Penn street, who was charged on oath of Joseph Voatre with stealing two plaster-of-paris deer heads, was up for a hearing yesterday before Alderman Strain, when he succeeded in showing that he was in no way connected with the larceny. He was honorably discharged.

Joseph Hagans, a tavern keeper in Baldwin township, was before Mayor Blackmore yesterday on a charge of selling liquor without license. He was held for a hearing to-day.

Alderman McMasters issued a warrant for the arrest of John Dougherty, on a charge of aggravated assault and battery, preferred by a colored man, named Joseph Stewart, who alleges that the accused knocked him down, the blow dislocating his jaw. The difficulty occurred on Seventeenth street.

Alderman Humbert's officers yesterday arrested Alexander McCaghen, on a charge of malicious mischief. Dr. W. S. Huselton, of Allegheny, is the prosecutor. He alleges that while driving along Federal street in his buggy, the accused, who drives a wagon belonging to S. M. Kier & Co., came along with his wagon, driving quite recklessly, the result of which recklessness was that the tongue of the wagon was brought in violent collision with the doctor's buggy, damaging the vehicle extensively. The accused was arrested and held for a hearing.

BREVITIES.

REV. S. F. SCOVEL, Pastor of the First Presbyterian Church, will sail for Europe about the middle of April.

THE committee appointed at the Citizens' Meeting Saturday to go to Washington, D. C., will leave for that city this evening on the 7:20 train.

THE alarm of fire last night about seven o'clock from box 4, Allegheny, was occasioned by the "burning out" of the soot in a chimney of a neighboring dwelling.

A REMINDER of the great snow blockade on the Pacific Railways, came to us yesterday in the way of a budget of California exchanges that had been detained a couple of weeks on the route.

LAST evening, about 6½ o'clock, Mrs. Bechtel, of South Pittsburgh, fell down a flight of stairs and was severely hurt. Dr. Legge was called in, who pronounced her injuries severe but not dangerous.

YESTERDAY John Dickson and Henry Stenkle were before Commissioner Gamble on a charge of selling liquor as retail dealers without paying the special tax. The accused have saloons in Allegheny. They gave bail in the sum of $1,000 each.

LAST evening a newsboy attempted to get on a car in front of the Monongahela House, but missed his footing, fell and was run over by a horse and buggy passing at the time. The boy received a severe cut in the head from which the blood flowed freely.

THE Washington accommodation train on the Chartiers Valley Railroad did not arrive in the city yesterday, owing to a caving in at Bell's tunnel on the road. The obstruction was cleared away after causing a delay of some hours, and trains are again making their regular trips.

MRS. DR. ROBERTS, living on Carson street, South Pittsburgh, had a gold chain and green silk dress stolen, and Miss Brennan, living a few doors from Mrs. Roberts's, had a gold chain stolen on Friday evening last. Officer Stemmler is on the track of the thief and expects to have him in durance vile before long.

ERNEST JUSTICE, the lad who complained at the Mayor's office that his father had abused him, was taken to his home yesterday by officer Seth Wilmot. The father was not at home and the boy was left there with the understanding that if the parent should repeat his violent treatment, the lad would enter a complaint before the Mayor.

JUSTICE HEISEL, of the South Side held an examination yesterday morning in the case of Adam Weitz, complainant and Chris. Feld, Chris. Lutz and Jacob Heiman, defendants; Adam first charges Lutz with keeping a ferocious dog. Wiltz also complains that Lutz broke a bucket over his head. Wiltz also complains that Helman knocked him down with a shovel, and then kicked him while he was down.

A GOODLY ASSEMBLY composed exclusively of the friends of Mr. and Mrs. J. R. Gregg, of the R. P. Church, Pittsburgh, Rev. A. M. Milligan's, called together by one of those occasions which relieve the montony of daily life, assembled, or took possession of his residence on Sandusky street, Allegheny, while him and his estimable lady were out for tea, and on their return were ushered into the parlor where Rev. A. M. Milligan, the pastor, presented to him, on behalf of his friends an elegant book case and secretary, a very fine specimen of workmanship. Mr. Gregg responded in a happy and feeling manner, considering the entire surprise with which he met. The host and hostess did all in their power to make the visitors comfortable, and succeeded in the fullest possible measure in their efforts. All went home highly delighted with their visit.

THOSE REASONS.

The Motion for a New Trial in the Great Oil Case.

Yesterday morning, the clerks in the Prothonotary's office renewed the search for those "reasons" filed by the counsel for a new trial for the defendant's in the case of Owston & Sowers vs. the Allegheny Valley Railroad Company. By some mistake they had been filed with the wrong budget of papers—hence the trouble of finding them when needed.

The document in which the reasons are set forth is somewhat extended, in its recapitulation of the points. Thirteen reasons are set forth, the most important of which are in substance as follows:

That the jury erred in finding for plaintiffs on the basis of a contract on December 20th. Second, that the witnesses called by plaintiffs did not corroborate the statements of Mr. Owston, and their testimony was calculated to mislead the jury in determining as to the existence of said contract. That the language of counsel for plaintiffs in his argument was highly inflammatory and denunciatory, and calculated to excite the prejudices of the jury, by intimations that the defendants were associated with the oil combination. Fourth, that counsel without giving notice, and therefore unfairly, disregarded the intimations of the Court by arguing that defendants were connected with the oil combination. Fifth, that the jury erred in their construction of the alleged contract of December 20, 1869. Sixth, that they erred in computing the amount of damages by including the 20th of December and Christmas in their calculations, thus giving plaintiff a larger sum than they were entitled to. Seventh, That they erred in estimating the damages, and that they should have allowed only one-half the amount named in the verdict if properly computed under the instructions. Eighth, That two of the jurors were German, and could not understand the English language sufficiently well to obtain full knowledge of the evidence and arguments of counsel, and that therefore the verdict was not the deliberate and enlightened judgment of the jury. The other points assign errors of the Court in its rulings on questions raised and points of law submitted.

GATHERING OF THE WORKERS.

Sunday School Teachers in Council—The Convention To-Day.

The regular annual convention of the Allegheny County Sabbath School Teacher's Association will commence this afternoon. The sessions are to be held in the First Presbyterian Church, Wood street, Rev. S. F. Scovel's, and in accordance with the arrangements made, the afternoon of each day will be devoted to the discussions and other business of the convention proper, and the evenings to mass meetings of the friends of the cause.

The Convention will open promptly at half past two o'clock. The first half hour will be devoted to religious exercises; following an hour will be spent in considering "Our difficulties and their remedies," in which discussion all who attend and have any practical suggestions to make are invited to participate.

In the evening the mass meeting will be addressed by Rev. H. Clay Trumbull, General James Beaver, of Bellefonte and Rev. J. H. Vincent, of New York.

This gathering of the friends and laborers in the Sunday School work, promises to be fruitful of interest and profit much beyond anything of a like character that has preceded it in this vicinity.

POISONED.

A Woman Dies From the Effects of Morphia—Coroner's Inquest.

The Coroner was summoned yesterday to hold an inquest on the body of Mrs. Henrietta Seitz, who died Saturday night at her residence in Etna borough. The circumstances attending her death are as follows: The deceased had been suffering during the past week from an attack of neuralgia, and was attended by Dr. Marquis. Saturday evening she became worse, and, as her regular physician was absent from home, Dr. McBride was called in. He prescribed morphia, which was taken by the deceased, and late Saturday night, shortly after taking the third dose of morphia, Mrs. Seitz's became insensible. Dr. Marquis was called in, and both he and Dr. McBride did all in their power for the patient, who, after lingering about five hours, died. The physicians both expressed the opinion that death was caused by opium poison. An investigation of Dr. M'Bride's prescription showed that the doses were not large, and the case now demands a further investigation in order to determine where the blame rests. The inquest was therefore adjourned till to-morrow morning, when it will be resumed at the Coroner's office.

NORTHSIDE HEALTH MATTERS.

Meeting of the Allegheny Sanitary Committee Last Night—A General Review of the Work Before Them—Paying the Bills—A Request to the Physicians.

Last night the Sanitary Committee of Allegheny Councils held a meeting at City Hall and spent some time in discussing the duties devolving upon them. It was finally decided, in view of the fact that the ordinance creating a Board of Health had been nullified, to ask Councils to have a new ordinance clearly defining the duties of the Committee, and empowering them to employ a Health Officer at a salary of $800 and a physician at $500 per annum salary. Messrs. Schoyer, Moul and Stuart were appointed to prepare the ordinance. The bill of Dr. Leasure for six weeks attendance at the Hospital amounting to $600 was ordered to be paid. A warrant was also ordered in payment of the bill of Dr. Campbell amounting to $400 for services as City Physician four months and Hospital Physician two months.

The Committee passed a resolution requesting all physicians to report cases of small-pox to the Health Officer.

National Joy.

France will boast of her Napoleon with feelings peculiar to France; England with mingled gloom and glory will associate the names of Nelson and Trafalgar; Ireland, as she sweeps the wild harp of her country's misfortune, will sing of the eloquence of her Curran, and the martyrdom of her Emmett; but higher than all are the peans of the young gentlemen of Pittsburgh who secure some of those elegant suits of fashionable clothing which can alone come from the popular establishment of URLING, FOLLANSBEE & CO., southwest corner of Wood street and Fifth avenue.

FIRST WARD, ALLEGHENY.

Is the School Building Safe.

It will be remembered that previous to the late election for School Directors in this ward, a rumor was started that the present school building was unsafe, and some thought it should be taken down, or vacated for school purposes. Considerable anxiety was created in the minds of parents and others who had children or relatives attending the school, and some of the teachers were induced to believe the truth of the rumor. In order to ascertain the exact condition of the aforesaid building the school Board engaged the services of a competent builder and also those of an experienced architect, who after making a thorough examination of the premises report as follows:

ALLEGHENY, Jan. 25, 1872.

Board of Directors of the First Ward Public Schools, Allegheny City:

GENTLEMEN: According to request, I carefully and thoroughly examined the School building throughout.

In my judgment it is perfectly safe. To remedy the springing of the floors, I would recommend the application of small girders, with one iron column in the center, under floors of second and third stories.

The deafening in the floors is very heavy, causing the springing when they are walked over, which may thus be effectually prevented.

Three of the rooms require new floors. All of which is submitted.

Respectfully, JAS. GILLILAND.

ALLEGHENY, Feb. 12, 1872.

To the Board of Directors, First Ward Public Schools, City of Allegheny:

GENTLEMEN: Having, at your request, made a thorough examination of the First Ward Public School building, we find that while the building is neither insecure nor unsafe, it is not as substantial as it should be, and we would recommend the insertion of an iron girder and iron column under the floor of each school room, which will render it perfectly safe and strong. Yours respectfully,

BARR & PEEBLES, Architects.

It will be seen from the above certificates that the building is perfectly secure, and in order to prevent the shaking of the floors the Board will have the beams and girders inserted at once. All persons who felt any anxiety owing to the report of the insecurity of the school building, may set their minds at rest, as there is no safer or more substantial edifice in the two cities. The Board deserve the thanks of the citizens of the ward for promptly attending to this matter.

THE BROWNSTOWN FIRE.

Clearing Up the Debris—The Insurance.

Workmen were engaged yesterday in clearing away the debris of the fire at the American Iron Works, preparing for the rebuilding of the portion of the works that was destroyed. The rebuilding will commence immediately, and it is expected that in two months the "burnt district" will be covered with the new furnaces, to take the place of that which fell a prey to the flames. The losses, as yet, cannot be accurately estimated, but the total amount of insurance has been ascertained, and aggregates $82,200, distributed among the companies as follows:

City—Eureka, $5,000; Western, $5,000; Citizens, $5,000; Monongahela, $5,000; Pittsburgh, $5,000. Total loss by Pittsburgh companies, $25,000.

Foreign—Home, of New York, $10,000; Continental, of New York, $6,200; Standard, $1,200; West Chester, $1,200; Niagara, $1,200; Springfield, Mass., $5,000; Merchants, of Providence, R. I., $5,000; Queen, of Liverpool, England, $5,000; North America, of Philadelphia, $5,000; Delaware Mutual, $5,000; Hartford, of Connecticut, $5,000; Phœnix, of Connecticut, $5,000; Home, of Columbus, Ohio, $1,200; Commercial Union, of London, $1,200. Total loss by foreign companies, $57,200, making the aggregate insurance $82,200.

It is thought that the loss by the fire will not go much beyond $100,000, but as yet this cannot be decided with any approach to accuracy.

GORMAN AND KROZIER.

Hearing Last Night—Points of Testimony—Locked Up Until To-Day.

Last night Gorman and Krozier, the parties suspected of robbing Semple's store, had a further hearing before Mayor Callow, at which some additional testimony was elicited, though of a somewhat conflicting character. A woman whom Gorman claimed to be his wife, testified that he had been at home on the evening of the robbery at eight o'clock; went to bed at nine, and was not out of the house until the next morning.

A friend of Krozier's testified that Krozier left his house for home that evening about a quarter past nine o'clock. As the robbery was committed before nine o'clock, this fact was given in evidence to prove an alibi. On the other hand another witness testified that he saw Gorman loitering about the place that evening; and the bar-keeper of the Smith saloon, just across the alley from the store, testified that he was well acquainted with Krozier, who had often been in his house—thus contradicting Krozier's statement that he had never been in the Smith saloon.

The Mayor, after the hearing had been concluded, reserved his decision until this morning, and in the meantime the men were remanded to their old quarters to await the result.

Public Entertainments.

PITTSBURGH OPERA HOUSE.—Mariette Rave made her first appearance this season last night in "Jartine" before a very large audience. M'lle. Mariette Ravel, the pleasing actress and danseuse, appeared in the title-role. "Jartine," which is a military play, is very exciting, and one just calculated to please admirers of the sensational drama. The many perilous situations into which the heroine (Jartine) is placed, hold the audience in breatnless suspense, and the terrific pitched battles between the French troops and the Mexican banditti seem to be *bona fide* realities. M'lle. Ravel personates five different characters in the drama, and we are certain that no one could do that difficult task more completely to the satisfaction of all. She dances most gracefully, and was loudly and frequently applauded. "Jartine" will be produced to-night for the second and last time. The public should not miss witnessing this meritorious drama, and seeing the beautiful daughter of Terpsichore, M'lle Ravel.

FIFTH AVENUE OPERA HOUSE.—Miss Ada Gray, a charming actress, made her first appearance here last evening to a fine house. The piece presented was the drama entitled "Cora, or the Pride of Wealth," with Miss Gray in the leading character, "Cora Tannenhoff." The piece was rendered in a manner that greatly pleased the audience, and may therefore be considered a success. It will be repeated this evening.

Re-animating the Hair.—When the hair ceases to draw from the scalp the natural lubricant which is its sustenance, its vitality is, as it were, suspended, and if not promptly attended to, baldness will be the certain result. The one sure method of avoiding such an unpleasant catastrophe is to use LYON'S KATHAIRON, which, when well rubbed into the scalp, will speedily re-animate the hair and prevent it from falling out. Besides that, this inimitable resuscitant and strengthener of the hair nourishes and stimulates its young and tender fibres, removes all obstacles to their growth in the shape of dandruff and dirt, and ultimately produces a new crop of hair, stronger, glossier, and twice as abundant as the old. As a hair dressing it is notably the most agreeable, refreshing and serviceable article ever placed upon a dressing-table. TH:T:S&W

Lockwood, lying at the Red river wharfboat, and crushed in nearly the whole starboard side. She careened over, and now lies on her beam ends close to the bank. The Silver Bow, lying next to the Lockwood, was also struck and crushed like an egg shell. She was dragged from her moorings into the current and sunk to the hurricane roof in the channel. The wharfboat and steamer were somewhat damaged, and both were leaking, but they are kept clear by pumps. The Lockwood and Silver Bow are probably total wrecks. Both were owned by the Carter Red River Packet Company. The former was valued at $25,000, and insured for $18,000; and the latter was valued at $38,000 and insured for $25,000; but the policies ran out yesterday, and only one had been renewed for $2,500.
